LABBOX COMMITMENTS

1

LOW PRICES- ALWAYS

Our prices are not “special offers” or “promotions”, but stay the best low prices possible through the whole year. Our commitment with you are starting from the first article, and we strive to give you the best prices possible at all times.

We will not increase our prices, only to give you a discount later. We have done all we can to reduce the prices, always at your advantage, and from your first purchase.

2

SATISFIED, OR YOUR MONEY BACK

You have 15 days, starting when we receive your order, to return any product you are not satisfied with, and we do not need further explanation.

If the product does not meet your expectations, you ordered it by mistake, or you got a faulty product, we will change it or give you your money back.

DISCLAIMER

We did our utmost to accurately define, through photographs, drawings, measurements and descriptions, all the products of this catalogue. Nevertheless, all the data, both graphics and descriptions, must be considered as approximative; they shall not constitute a written contract between Labbox Labware S.L and its clients. In case of a discrepancy between the information in the catalogue and the actual product, Labbox Labware S.L. responsibility is limited to accepting the return of the products.

Products mentioned in this catalogue are exclusively made for laboratory use, and their utilization is reserved for professional purposes only. Labbox Labware S.L. cannot be held responsible for the misuse of its products. People involved in handling, transporting or using these products must know the risks involved. They must wear the recommended individual or collective protection devices, read and follow the safety recommendations written on the labels, on the Material Safety Data Sheet of chemical products, or in the instruction manuals.

ABOUT LABBOX

Labbox was born in Barcelona at the end of 2005 with three commitments that still remain intact today: to offer laboratory material at fair prices, to deliver quickly and to build close and trusting relationships with the customers.

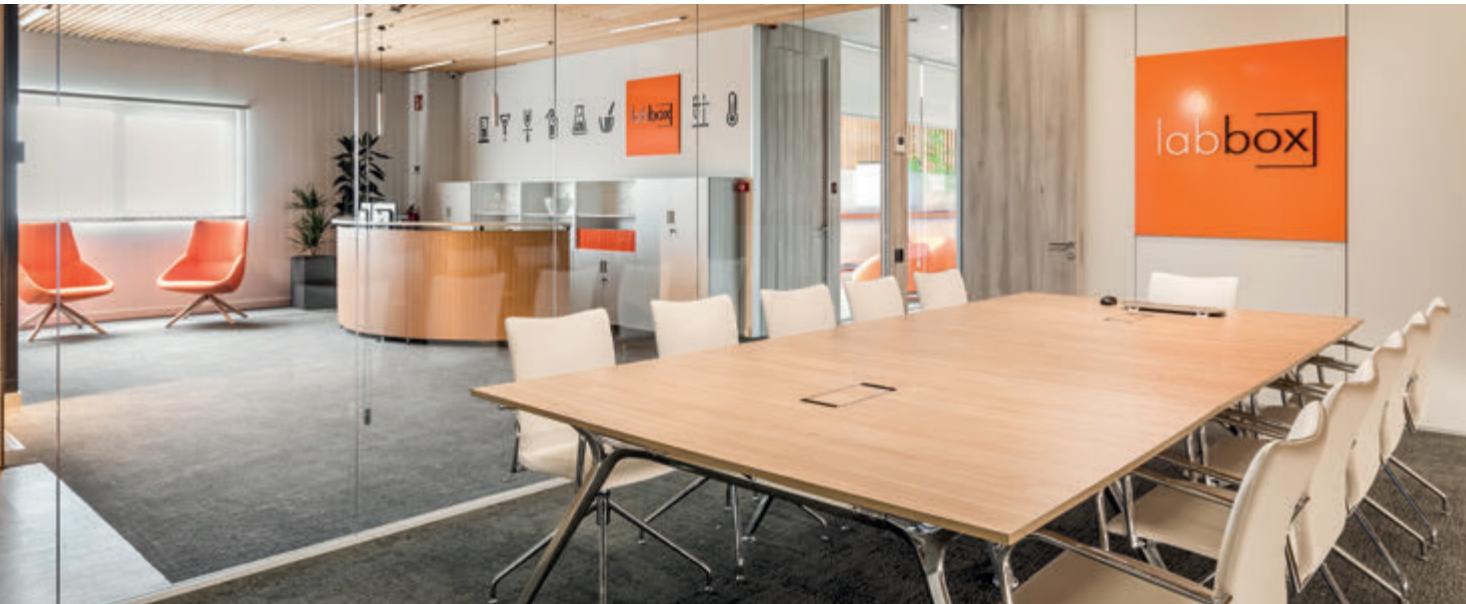

Since its launch, Labbox has transformed the laboratory materials market in Spain, being the fastest growing company in this field over the past 18 years.

In March 2006 our first catalogue in Spain came to life, with about 10 pages and 200 laboratory glass references. Since then, every year a new catalogue has been launched, with an ever-growing portfolio. Nowadays, the Labbox catalogue has become a reference point in the sector offering more than 5800 references of consumables, equipment, and laboratory chemical products.

Labbox has its own subsidiary in France, Italy, the Netherlands and Germany. In addition, we have the support of distributors in more than 50 countries, more than 70 employees, several thousand active customers and a revenue of over 16 million euros.

In our effort to become a leading global supplier of laboratory products, in 2021 we opened a new headquarters near Barcelona with a total surface of 5000 m². The characteristics of the new warehouse allow us to improve efficiency and agility, multiplying our storage capacity by 5. In addition, the facilities are adapted to store chemicals safely.

If we look back, we can say that we are proud of the journey that we have taken and the fact that we have kept our business values, the same values that we once dreamt of and that would help to create a company that is different from the rest.

OUR BRANDS

Labbox presents an extended catalogue of references that are integrated into 14 specialized own brands by fields, and easily identifiable in our catalog thanks to their logos.

WHAT'S NEW

2024

For easy distinction, the new references are marked in orange along with the 'New' logo.

LBX instruments includes laboratory equipment such as stirrers, baths, evaporators, centrifuges, incubators, ovens, or vacuum pumps, along with all the accessories required for their use.

In this catalogue edition, we introduce several new items to the range:

The cooling recirculator, **RC-1**. A versatile instrument that can be combined with many devices in our catalogue (rotary evaporators, distillation equipment, Soxhlet apparatus, etc.) and represents an eco-friendly and cost-effective option for cooling applications.

Two new **stirrers**:

The **H10X04** multiple magnetic stirrer with heating, the only one in our range of multi-plate stirrers that allows individual regulation of temperature and speed for each plate.

The **ROC-B1** mechanical stirrer, the first with "oscillating" movement.

p. 164, 268, 272

NEW MOLECULAR BIOLOGY REAGENTS

The Gquence molecular biology reagents line experiences growth this year by introducing eight new products and expanding some references in existing products. These additions enrich the Gquence portfolio, providing researchers with an increasingly diverse range of options and facilities.

p. 25 - 31

Visit our website to stay updated on the innovations we incorporate into our portfolio throughout the year.

Our Astik's brand includes all kinds of plastic consumables for use in laboratories, clinics, industry, ...

To this extensive and versatile range, we add:

New cardboard racks for micropipette tips, combining lightweight and 100% biodegradable materials. They reduce plastic consumption by 60% compared to traditional options, maintaining quality without compromising our commitment to sustainability.

New conductive tips for automated or robotic systems. They offer a standardized design ensuring precise and efficient handling of liquid volumes, large or small, during processes such as sample preparation, assays, and automated analysis.

Polypropylene vials with hinged lids and graduations. Ideal for food sampling.

astik's

p. 121-122, 210

METRIA

METRIA products will allow you to perform your tests and measurements with excellent precision and reliability.

In this catalogue edition, we have expanded the range of chromatography vials with new types of vials and caps to cover the full spectrum of applications.

Additionally, METRIA introduces the PLUS analytical balance, available in two versions: external calibration and internal calibration. METRIA balances offer excellent stability and sensitivity.

p. 216-221, 248

ALSO OF INTEREST...

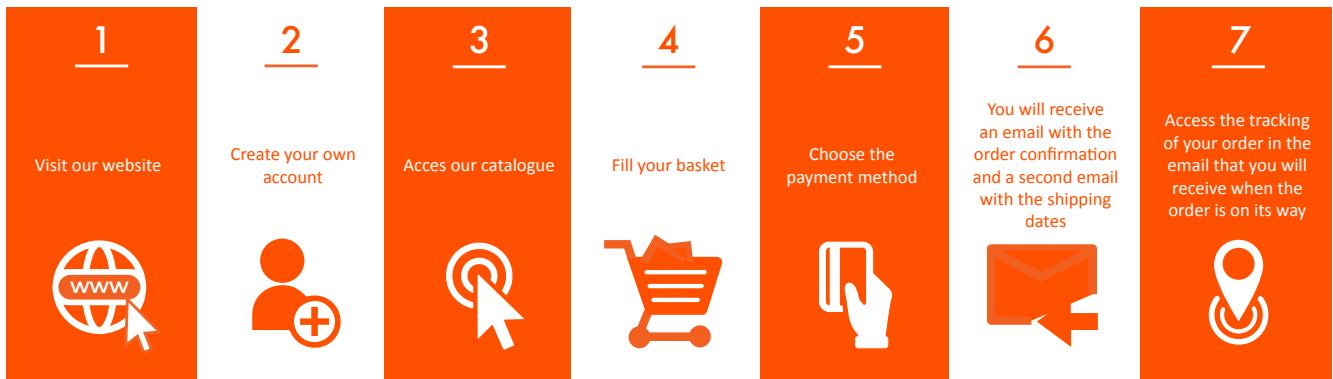

New set of special laboratory markers that includes three different colours (black, blue, red).

Pre-cut aluminum foil. Ideal for packaging, wrapping, and isolating. Available in different sizes and in square and round shapes.

p. 94

HOW TO PLACE AN ORDER?

Option to generate a quotation before sending your order

In addition to the possibility of tracking your order, in the tracking email you will also find the delivery note of your purchase and important information regarding the products of the shipment

In some markets we sell our products through distributors to serve you more closely and efficiently. In these cases, you should contact our partners to purchase the products of this catalogue. At our website you will find the contact of your nearest distributor

Place your order 24/7 at our website

PICTOGRAM GUIDE

	Requires cold transportation		Autoclavability
	Product of short shelf life, please read carefully the information about the expiry date on the label		Complies with the specifications defined in the European directive
	Food-grade product		Complies with the European Directive of In Vitro Diagnostic Devices
	May require a declaration of use depending on the destination country		Product made of borosilicate glass with high chemical resistance and low reactivity
	Suitable for photo-sensitive samples		Product made of soda-lime glass with moderate chemical resistance
	DNasa and RNasa free		Sterile by Ethylene Oxide
	Sterile by gamma radiation		Sterile by beta radiation
	Available in standard size and economy size		Bisphenol A (BPA) and phthalate-free product

PACKAGING

	plastic bottle GL45		Bag in Box PET/Al		COEX plastic jerrycan
	plastic bottle		glass bottle PP28		plastic pail
	glass bottle GL45		metal can		vial
	glass bottle		glass dropper bottle		bag
	plastic dropper bottle		specimen container		zipper bag
	plastic ampoule		plastic jerrycan		plastic dispenser bottle
	aluminium container		COEX plastic bottle		plastic spray
	plastic twin neck		plastic Bag

LIFE SCIENCE

GRYNIA**CULTURE FLASKS, TREATED, STERILE**

Manufactured with USP VI crystal class virgin polystyrene in a 100000 grade clean room. Treated surface. Flat base which is free from striation to maximize the usable growth area. Polyethylene cap available in two versions: blind standard cap for closed systems and vented cap with a 0,22 µm hydrophobic membrane to allow gas exchange minimizing the risk of cross contamination. Angled neck design to improve access of pipettes and cell scrapers. Engraved graduation on both sides and writing area next to the neck. Sterilized by beta irradiation and certified free of DNase, RNase and pyrogens. Packed in resealable bags. Free sterilization certificate available on the website

GRYNIA**MULTILAYER CULTURE FLASKS, STERILE**

Manufactured with transparent high-quality polystyrene. 5 layers with treated surface for maximizing cell adherence. Polyethylene cap available in two versions: blind standard cap for closed systems and vented cap with a 0,22 µm hydrophobic membrane to allow gas exchange minimizing the risk of cross contamination. Sterilized by beta irradiation and certified free of DNase, RNase and pyrogens. Packed in resealable bags. Free sterilization certificate available on the website

POLYSTYRENE SEROLOGICAL PIPETTE, STERILE

Made of crystal polystyrene and with colour coded ring for quick volume identification. Sterilized by beta irradiation. Non-pyrogenic. Packed individually in paper/plastic bag (peel-pack). Cotton filter plug to protect pipetting devices. Graduations are calibrated for accurate dispensing within $\pm 2\%$. Normal graduation (zero on top). Carton has been specially designed for efficient bench top dispensing with a removable perforated front pane. Free sterilization certificate available on the website

GRYNIA

TISSUE GRINDER, PTFE

astiK's

Used for the controlled reduction of particle size and homogenization of a variety of substances, especially biological material. The plunger head is made of pure PTFE and the shaft of stainless steel ($\varnothing 6,5$ mm). The tube is made of borosilicate glass and the clearance between the plunger head and tube is 0,15-0,25 mm wide. Volumes stated are working volumes with the plunger in place

Labocap**TEST TUBE CAPS, LABOCAP**

Used in microbiological, bacteriological and biotechnological laboratories. They are mainly used to protect the sample against external dirt, guaranteeing a sterilizable but non-hermetic seal. Made of high quality aluminum. Built-in spring made of nickel-plated steel that gives an excellent adhesion to the tube and ensures the required air flow

THERMOCYCLER, TC1000

Used to amplify DNA and RNA samples via the polymerase chain reaction and for other temperature-sensitive reactions. Aluminum block capacity (included): 96 x 0,2 ml PCR tubes, 96 well plate or 8 and 12 PCR tube strips. Heating temperature range: 4-105°C. Lid temperature range: 30-110°C. Temperature display resolution: ±0,1°C. Temperature control accuracy [at 55°C]: ±0,3°C. Temperature uniformity [at 55°C]: <0,3°C.

Max heating/cooling rate: 3°C/sec. Intuitive LCD touch screen for real time monitoring of experimental temperature. Six high-performance Peltier structures for temperature control accuracy. Superior temperature control system with two options: programming the block temperature or programming the estimated temperature inside the tube. Adjustable thermal lid with anti-sample evaporation function. Power-ON self-test function for quick internal diagnosis. Power off protection with automatic program recovery. User defined file system: max. 30 segments of 99 cycles, max. 16 folders and 16 files in each folder. Hot lid automatic shut-off function if module temperature is lower than 30°C. Compatible with most universal PCR tubes and 96-well PCR plates.

Dimensions: 280 x 370 x 250 mm. 200-240 V / 50-60 Hz. Warranty 2 years

REAGENTS AND KITS FOR MOLECULAR BIOLOGY

x-VITA TAQ POLYMERASE

The x-VITA Taq DNA Polymerase is a thermostable recombinant enzyme produced in an *E. coli* strain, which carries the cloned pol gene from *Thermus aquaticus*. The enzyme has 5' to 3' polymerase activity

reference	description	package	price/pack kr
TAQP-S05-001	5U/ μ l, 250 rxn	500 U	640

x-VITA MASTERMIX FOR PCR (2X)

The x-VITA MasterMix is an optimized ready-to-use MasterMix that contains all PCR reaction components: dNTPs, PCR buffer, Mg²⁺ and Taq DNA polymerase

reference	description	package	price/pack kr
TAQM-S02-001	primers and template not included, 250 rxn	2 x 1,25 ml	1440

x-VITA HOT START TAQ POLYMERASE

Specific, highly efficient and sensitive HotStart DNA Polymerase designed to minimize unspecific amplification, improving PCR specificity. It is bound to a proprietary antibody that blocks polymerase activity until a denaturation step occurs. The heat-labile antibodies are rapidly inactivated by raising the temperature. This minimizes primer-dimer and non-specific products. Before enzyme activation none of the enzyme activities are detectable

reference	description	package	price/pack kr
TAQP-H01-001	Hot Start, 5 U/ μ l, 250 rxn	500 U	1202

x-VITA HOT START TAQ POLYMERASE MASTERMIX

x-VITA Hot Start Taq Polymerase MasterMix (2x) is an optimized ready-to-use solution containing x-VITA Hot Start Taq Polymerase (TAQP-H01-001), dNTPs, MgCl₂ and stabilizers. It is inactive at Room Temperature and includes all material needed except Template and Primers

reference	description	package	price/pack kr
TAQM-H01-001	primers and template not included, 250 rxn	2 x 1,25 ml	1113

x-VITA GREEN-TAQ POLYMERASE

x-VITA Green-Taq Polymerase is a pure, versatile and thermostable recombinant enzyme produced in an *E. coli* strain, which carries the cloned pol gene from *Thermus aquaticus*. The 10x Green Buffer contains an Agarose Loading Buffer including two tracking dyes (blue and yellow dye) for visual tracking of DNA migration and a dense compound to facilitate the drop-down of the samples into the well Agarose gels. Blue dye (migrates with 3 to 5 kb DNA fragments in 1% agarose gel) and Yellow dye (migrates faster than 10 bp DNA fragments in 1% Agarose gel). Includes 100 μ l of x-VITA Green-Taq Polymerase and 2 x 1,25 mL of Green Buffer (10x) with 20 mM MgCl₂

reference	description	package	price/pack kr
TAQP-SG5-001	green buffer, 5 U/ μ l	500 U	927

x-VITA TAQ POLYMERASE PROOFREADING

Derived from the hyperthermophilic archaeon *Pyrococcus furiosus*, it possesses superior thermostability and error correction properties (3' to 5' exonuclease activity), allowing it to correct nucleotide misincorporation errors. PCR products result in blunt ends, which are ideal for cloning into vectors. Elongation rate of 1 kb/min (70-75°C)

reference	description	package	price/pack kr
TAQP-PF1-001	2,5U/µl, 125 rxn	250 U	562

x-VITA MASTERMIX FOR PCR PROOFREADING (2X)

The x-VITA MasterMix is an optimized ready-to-use MasterMix that contains all PCR reaction components: dNTPs, PCR buffer, Mg²⁺ and Taq DNA polymerase proofreading

reference	description	package	price/pack kr
TAQM-PF1-001	primers and template not included, 100 rxn	1 ml	767

x-VITA TAQ POLYMERASE FOR LONG FRAGMENTS

A specially formulated solution designed to amplify long DNA fragments. It combines two thermostable DNA polymerases, the standard Taq x-VITA and the proofreading x-VITA. It can amplify long DNA chains, such as the λ phage genome, of up to 20 kb. It's also a superior choice for amplifying complex templates, particularly those with a high GC content. The elongation rate is 3 kb/min. The generated products consist of a mixture of 3'-dA overhang and blunt-end products, which can be used in TA cloning

reference	description	package	price/pack kr
TAQP-LT1-001	2,5U/µl, 125 rxn	250 U	809

x-VITA MASTERMIX FOR LONG FRAGMENT PCR (2X)

The x-VITA MasterMix is an optimized ready-to-use MasterMix that contains all PCR reaction components: dNTPs, PCR buffer, Mg²⁺ and Taq DNA polymerase for long fragments

reference	description	package	price/pack kr
TAQM-LT1-001	primers and template not included, 100 rxn	1 ml	750

x-VITA dNTP MIX

The x-VITA dNTP Mix offers high purity and stability for PCR assays. The ready-to-use solution includes each dNTP (dATP, dCTP, dGTP, dTTP) mixed at final concentration of 10 mM or 40 mM

reference	description	package	price/pack kr
DNTP-025-001	2,5 mM each nt, 10 mM total	1 ml	390
DNTP-040-001	10 mM each nt, 40 mM total	1 ml	600

MAY REQUIRE A DECLARATION OF USE DEPENDING ON DESTINATION COUNTRY

REQUIRES REFRIGERATED TRANSPORTATION

x-VITA PCR ENHANCER

PCR supplement that enhances sensitivity, leading to enhanced PCR effectiveness and decreased background noise. Especially beneficial for challenging templates (e.g., those rich in GC content) and intricate reactions

reference	description	package	price/pack kr
PCRE-GC1-001	ready-to-use mix	500 µl	426

qLUMEN MASTERMIX FOR qPCR (2X) WITH PROBE

The qLUMEN Probe MasterMix offers exceptional performance for real-time PCR. It is based on the TaqMan® Probe-based analysis. Includes all the components required for running qPCR reactions except for primers and template

reference	description	package	price/pack kr
QPCR-PHR-001	high ROX™, 100 rxn	2 x 1,25 ml	2226
QPCR-PLR-001	low ROX™, 100 rxn	2 x 1,25 ml	2226

qLUMEN MASTERMIX FOR qPCR (2X) WITH GREEN DYE

The qLUMEN MasterMix with green dye offers exceptional performance for real-time PCR using an analogue green fluorescent dye to SYBR® Green. Includes all the components required for running qPCR reactions except for primers and template

reference	description	package	price/pack kr
QPCR-GHR-001	high ROX™, 100 rxn	2 x 1,25 ml	2226
QPCR-GLR-001	low ROX™, 100 rxn	2 x 1,25 ml	2226
QPCR-GWR-001	w/o ROX™, 100 rxn	2 x 1,25 ml	2226

qLUMEN ONE-STEP RT-qPCR KIT WITH PROBE

The qLUMEN RT-qPCR Kit with probe offers exceptional performance in cDNA Synthesis and qPCR in a single tube. The kit includes a MasterMix supplied in a 2x concentration to perform Real-Time PCR and is compatible with most probe technologies. It also includes a RT mix that comprises a balanced mixture of both RTase and RNase inhibitors

reference	description	n° tests / sales unit	price/pack kr
RPCR-KPH-100	high ROX™	100	3376
RPCR-KPL-100	low ROX™	100	3256

qLUMEN ONE-STEP RT-qPCR KIT WITH GREEN DYE

The qLUMEN RT-qPCR Kit with green dye offers exceptional performance in cDNA Synthesis and qPCR in a single tube. The kit includes a MasterMix supplied in a 2x concentration to perform Real-Time PCR using a proprietary green dye. It also includes a RT mix that comprises a balanced mixture of both RTase and RNase inhibitors

reference	description	n° tests / sales unit	price/pack kr
RPCR-KGH-100	high ROX™	100	3256
RPCR-KGL-100	low ROX™	100	3376

x-VITA 2X ONE-STEP RT-PCR MIX

For one-step reverse transcription and PCR applications with gene-specific primers (GSP) for RNA targets. It is formulated with optimized components and buffers to enable reverse transcription and amplification in a single reaction tube. Supplied at a 2X concentration, it's easy to use, requiring only the addition of GSP and RNA template, without the need to open caps or perform additional pipetting operations, saving time and effectively reducing the risk of contamination

reference	description	n° tests / sales unit	price/pack kr
RPCR-K01-050	primers and template not included, 50 rxn	1,25 ml	4685

dNEAT PCR PURIFICATION KIT

The dNEAT PCR Purification Kit provides a highly efficient method to isolate and purify DNA from amplicons of reaction mixtures. The columns contain a membrane that allows DNA binding in presence of chaotropic salts and the removal of contaminants. The kit contains: Buffer A1, buffer A2, Washing solution and 50 columns

reference	description	n° tests / sales unit	price/pack kr
PURK-PCR-050	PCR DNA purification	50	1106

dNEAT AGAROSE PURIFICATION KIT

The dNEAT Agarose Purification Kit provides a highly efficient method to extract DNA from agarose gels. The columns contain a silica membrane that allows the binding of the DNA fragment in presence of chaotropic salts. The kit contains: Buffer A1, buffer A2, Washing solution and 50 columns

reference	description	n° tests / sales unit	price/pack kr
PURK-AGA-050	agarose gel DNA purification	50	1150

dNEAT PLASMID PURIFICATION KIT

dNEAT Plasmid Purification Kit provides a highly efficient and reliable method to isolate plasmid preparations in mini format. The columns' silica membrane allows the binding of up to 24 µg of DNA

reference	description	n° tests / sales unit	price/pack kr
PURK-MIN-050	isolation of plasmid minipreparations	50	1150

dNEAT SALIVA DNA EXTRACTION MINI SPIN KIT

Reliable, easy and rapid Mini Spin Kit for the purification of high-quality DNA from human and animal sample saliva. The kit is based in the DNA ability to bind silica in the presence of high concentrations of chaotropic salts

reference	description	n° tests / sales unit	price/pack kr
PURK-SAL-050	isolation of total DNA from human sample saliva	50	2411

dNEAT BLOOD DNA EXTRACTION KIT

Reliable, easy-to-use and rapid method for high-quality genomic DNA purification from various sources, including: whole blood, buffy coat or cultured cells. The procedure includes: lysis, protein removal, DNA precipitation, washing and hydration

reference	description	package	price/pack kr
PURK-BLD-100	for 5 or 10 ml samples	100 ml	1561

dNEAT BACTERIAL GENOMIC DNA ISOLATION KIT

This purification kit provides an accurate, easy-to use and rapid method to isolate high quality DNA from both Gram negative and Gram positive bacteria. The kit uses breakthrough technology based in the ability to bind silica in the presence of high concentrations of chaotropic salts as guanidinium thiocyanate. The extraction process uses comfortable MiniSpin Columns and includes an initial cell-wall lysis step with the appropriate enzyme to ensure efficient cell lysis and DNA release from the cell

Gquence

reference	description	n° tests / sales unit	price/pack kr
PURK-BAC-050	bacterial DNA isolation from cell pellets	50	1685

rNEAT TISSUE TOTAL RNA PURIFICATION KIT

The rNEAT Tissue Total RNA Purification Kit provides a rapid and efficient method to isolate and purify RNA from tissue and culture cells. The columns contain a membrane that allows RNA binding in presence of chaotropic salts and the removal of contaminants. Tissue samples can be homogenized in a microcentrifuge tube using the provided micropesle

Gquence

reference	description	n° tests / sales unit	price/pack kr
PURK-RNA-050	RNA purification from tissue samples	50	3605

rNEAT VIRAL RNA EXTRACTION KIT

Designed for the rapid purification of viral RNA from cell-free samples such as serum, plasma, urine, cell free body fluids, cell culture supernatants and rinse liquid from swabs samples. Viral RNA molecules bind to the silica-based media and impurities such as proteins and nucleases are removed by thorough washing with Wash Buffer. The RNA is then eluted in sterile, RNase free water. The isolated Viral RNA is ready-to-use and should be stored at -70°C. The procedure can be used for isolation of viral RNA from a broad range of viruses. However, performance cannot be guaranteed for every virus species and must be validated by the customer. The amount of purified viral RNA depends on the sample type, the virus titer, sample source, transport, storage, and age. The Kit also includes carrier RNA that improves binding and recovery of low-concentrated viral RNA

Gquence

PURK-RNV-100	the purified RNA is suitable for RT-PCR and qRT-PCR	100	6020

PROTEINASE K

Proteinase K isolated from *Tritirachium album* is used for protease digestion during DNA and RNA preparation. It is a serine protease that exhibits broad cleavage specificity. With a molecular weight of 28.900 kD, it cleaves peptide bonds adjacent to the carboxylic group of aliphatic and aromatic amino acids. It is not inactivated by chelating reagents such as EDTA or detergents such as SDS and is active in a wide range of pH (4 - 12,5)

RNase INHIBITOR

RNase Inhibitor is a recombinant protein which specifically inhibits Ribonucleases A, B and C. The protein inhibits RNases by binding noncovalently in a 1:1 ratio with a potent affinity ($K_i > 10-14 \text{ M}$). RNase inhibitor protein is purified from E.coli strain harbouring a plasmid with cloned gene coding of mammalian RNase inhibitor

GQUENCE EXTRACTION AND PURIFICATION KITS

The dNEAT and rNEAT kits for isolating nucleic acids are based on the spin column method. This method is widely used in many nucleic acid purification kits and is very common in research and other laboratory fields. The main principle relies on nucleic acid binding to a solid surface, such as silica gel. Once the cellular lysate is eluted, addition of buffers with varying conditions, such as in pH or salt concentration, facilitate nucleic acid binding and removal of unwanted particles. Therefore, the obtained sample is purified thus ready to use in any downstream application, such as PCR, qPCR, NGS, Cloning, among others.

lbx**ELECTRIC STERILIZER, S850**

Designed for sterilization of laboratory equipment like needles, tweezers and other small items at high temperatures and short sterilization time (5-7 seconds). Can also be used at lower temperatures and long sterilization time to prevent contamination. Temperature range: RT +20 - +850°C. Maximum diameter of objects to sterilize: 15 mm. Adjustable angle: 45-75°. Dimensions (L x W x H): 210 x 90 x 170 mm. 220 V / 50-60 Hz. Warranty 1 year

**STERILITY AND ASEPSIS DIFFERENCES**

Sterilization is a crucial process in various sectors, including the food industry, healthcare/pharmaceutical sector, among others. Its purpose is to eliminate any microbial load, whether pathogenic or not, from products such as micropipette tips, culture media, or cell culture products, for example. Sterilization aims to prevent cross-contamination of samples or the growth of unwanted microorganisms. Failure to sterilize products or culture media may lead to the appearance of undesired microorganisms, altering the trial conditions and invalidating the results.

Sterilization should not be confused with other laboratory material disinfection processes. When referring to sterilization, it means the complete elimination of microorganisms, including resistant forms like spores. Disinfection removes a significant portion of microorganisms on surfaces but does not eliminate their resistant forms. On the other hand, asepsis is the condition of a surface free from pathogenic microorganisms. Aseptic techniques eliminate pathogenic bacteria, viruses, fungi, and harmful spores, all detrimental to health. Sterilization does not differentiate between harmful and beneficial microorganisms; it eliminates all living microorganisms.

"BIOLOGICAL MICROSCOPE, B1 ELITE

Monocular, binocular or trinocular head (according to model), 45° inclined and 360° rotating. Widefield WF10X/18 mm eyepieces. Quadruple revolving nosepiece with achromatic Semi-Plan SP objectives 4X, 10X, 40X S and 100X S-Oil. Coaxial coarse and fine focusing system. Low position coaxial mechanical stage. Focusable 1.25 N.A. Abbe condenser. Iris diaphragm with filter holder. LED illumination 3W with intensity control. Dust cover and immersion oil included. Main supply 220-240 V (CE). Warranty 5 years on optical and mechanical components. Delivery time 2-3 weeks

The Moticam A cameras are compatible with the eyepieces of microscopes and stereomicroscopes.

There is no need to purchase any additional adapters; everything required to use these cameras with monocular and binocular microscopes is included in the box.

Motic**"PETROGRAPHIC MICROSCOPE, PM-18 LED**

Monocular or binocular head 45° inclined and 360° rotating. Widefield WF 10X/18 mm eyepieces with cross reticle. Reversed quadruple revolving nosepiece with achromatic objectives EA 4X, 10X and 40X S. Coaxial coarse and fine focusing adjustment. Working table rotating from 0–360° with graduation to 1°. Focusable 1.25 N.A. Abbe condenser. Iris diaphragm with filter holder. Includes a swing in/out analyser and polarizer. Halogen illumination 12V/20W with intensity control. Dust cover included. Supply 220-240 V (CE). Warranty 5 years on optical and mechanical components. Delivery time 2-3 weeks

**Motic****"HIGH-END BIOLOGICAL MICROSCOPE, BA-210 LED AND BA-210 LED DIGITAL**

Binocular or trinocular head (according to model) Siedentopf type, 30° inclined and 360° rotating. For digital model only: binocular head, Siedentopf type, 30° inclined with built-in digital camera CMOS 1/2" chip 2048 x 1536 pixels with USB 2.0 output. Widefield N-WF10X/20 mm eyepieces. Reversed quadruple nosepiece with CCIS Plan achromatic objectives (Colour Corrected Infinity System) EC Plan 4X, EC Plan 10X, EC Plan 40X Spring and EC Plan 100X Spring-Oil. Coaxial coarse and fine focusing with tension adjustment. Low position coaxial mechanical stage with controls at right side. Focusable 1.25 N.A. Abbe condenser with iris diaphragm and slot. Blue filter Ø45 mm, dust cover, hexagonal Allen key and immersion oil 5 ml bottle included. Digital model includes calibration slide and Motic Images Plus 3.0 Software for PC and Mac. LED illumination 3W with intensity control. Universal supply 100-240 V (CE). Warranty 5 years on optical and mechanical components. Delivery time 2-3 weeks

HOW TO ADJUST THE MICROSCOPE TO THE DIOPTRES

The dioptre adjustment compensates any differences in vision between the left and right eye

1 - Look through the eyepiece on the right side with your right eye

2 - Focus the image by using the fine and or coarse focusing adjustment knobs until the image of the specimen is sharp

3- Then look through the eyepiece on the left with your left eye. Use the dioptre's adjustment ring to focus to focus the sample until the image is sharp

The microscope is now ready for perfect binocular viewing providing an accurate visualisation of the specimen

Motic**"HIGH-END BIOLOGICAL INVERTED MICROSCOPE, AE-2000"**

Binocular or trinocular head (according to model) Siedentopf type, 30° inclined and 360° rotating. Widefield high eyepoint N-WF10X/20 mm eyepieces with dioptric adjustment and protectors in both eyepieces. Side facing quadruple nosepiece with CCIS Plan achromatic objectives (Colour Corrected Infinity System) PL4X and CCIS Plan Achromatic Phase objectives PL Ph10X (Ph1) and LWD PL Ph20X (Ph 1). ELWD condenser N.A. 0.30. Phase slider Ph1, BF, Ph2Phase centering telescope. Plain stage with metal and glass stage inserts. Ø 45 mm blue, green interference and neutral density filters with filter slider, dust cover, hexagonal Allen key and immersion oil 5 ml bottle included. Quartz halogen illumination 6V/30W with intensity control and sleeping mode. Universal supply 100-240 V (CE). Warranty 5 years on optical and mechanical components. Delivery time 2-3 weeks

"FULLHD HDMI CAMERA, MOTICAM 1080N AND MOTICAM 1080N BMH

FullHD camera for microscopy with HDMI (1080p) output, USB output and 1920x1080 pixels resolution in real time. Images can be captured directly onto an SD card at 6 Mp resolution. Screen: LCD 11,6" Full HD (available only for MOTICAM 1080N BMH). Software On Board (allows you to control the camera parameters by connecting a mouse to the USB). Eyepiece couplers for connection to the most common microscope eyepieces of any brand. Focusable macro lens. Calibration slide included. Motic Images Plus 3.1 Software for image capture and edition with Windows and MAC (multilanguages software).

2 years warranty. Delivery time 3-4 weeks

"WI-FI DIGITAL CAMERA, MOTICAM X5 PLUS

Digital camera for microscopy with Wi-Fi output (2.4 or 5 GHz), Ethernet with an attachable C-mount. Live resolution: FullHD (1920 x 108 pixels). Still resolution: 4.0MP. Sensor: CMOS. Optical calculation: 1/3". Focusable lens: 12mm. 2 variable diameter eyepiece adaptors. Macrotube for specimens observation. USB supply. Motic Images Plus 3.0 for PC and Mac. Motic 4-dot calibration slide. Operating system: Windows, Mac OSX, Android and iOS. Supply 100V-240V (CE). Warranty 2 years. Delivery time 2 weeks

"DIGITAL CAMERA WITH WIFI CONNECTION AND BRACKET FOR TABLETS, MOTICAM BTI

Adaptative digital camera with an attachable C-mount. Built-in bracket for tablets from 7" to 10" (Tablet not included. Users can use their own tablet and connect through Wi-Fi). Sensor type: CMOS. Sensor size: 1/3". Live resolution: 1920 x 1080 pixels. Image capture resolution: 4.0MP. Output: WiFi (2,4 or 5,0 GHz). Motic Images Plus 3.0 for Windows, OSX and Linux. Motic 4-dot calibration slide. Power Supply 100V-240V (CE). 2 years warranty. Delivery time 3 - 4 weeks

CRYOTUBE WITH SCREW CAP, STERILE STANDARD LINE

PP tube/HDPE Closure. Medical grade resin compliant with USP class VI. Leak proof with easy 3/4 turn and final 1/4 turn for perfect seal. Packed in resealable bags. Highly visible graduations and labeling area. Star foot design. Certified DNase, RNase and pyrogen-free. Withstand temperatures from -196 °C up to 40 °C. With exterior screw. Sterilized by gamma irradiation. Free sterilization certificate available on the website

CRYOTUBES WITH INNER THREAD FOR 10X10 CRYOBOXES, PREMIUM LINE

Straightline design allows to be stored in standard 10x10 cryo boxes giving 23% additional storage capacity. Single-handed quick seal, closure allows tightening or removal with just half turn avoiding long-term injuries to the user. Star-foot stand makes it compatible with common working stations on the market. Specially designed cap with lip seal feature, 100% leak proof. Cap and tube are made of FDA-approved medical grade polypropylene with the same coefficient of expansion enhancing leak proof qualities within the temperature range (-196 °C to +120 °C). Autoclavable. RNase and DNase free. Manufactured in a clean room environment, ISO-9001, ISO-14001 and ISO-13485. Sterilized according to ISO 11137-2:2013 "Sterility Assurance Level" (SAL) by standard products 10⁻⁶. Free sterilization certificate available on the website

LIQUID NITROGEN HANDLING RECOMMENDATIONS

- Wear appropriate personal protective equipment (PPE) (face shield/goggles, insulated gloves)
- Only use containers & equipment designed for cryogenic liquids. The liquid turn into gas and raises the pressure in the container
- Never trap liquid nitrogen in a container, tubing or piping. Common materials such as plastic or glass can shatter when exposed to liquid nitrogen
- Use liquid nitrogen in well-ventilated areas as the gas could potentially displace oxygen posing a risk of asphyxiation

**CARTON FREEZER BOX FOR CRYOTUBES UP TO 2 ml**

THICK-WALLED BEAKER, LOW FORM WITH DOUBLE CAPACITY SCALE

Made of 3.3 borosilicate glass. These beakers are stronger than standard beakers. High mechanical resistance thanks to a thick and reinforced wall, which is less prone to breakage during washing, has longer life time and increased user safety. Graduated and with spout. According to ISO 3819

HDN
ceramics**AGATE MORTAR WITH PESTLE PREMIUM LINE**

Mortar with hexagonal shape made of high hardness and abrasion resistant agate. The hardness is 7 on the Mohs scale and 83 on the Rockwell scale (45N). Inner and outer surfaces fine polished. Price includes mortar and pestle. Due to the manufacturing process of these mortars, the dimensions mentioned in catalog are approximate and could be subject to change

MOLECULAR MODEL SET

Gives a better insight to students into the three dimensional aspects of molecules and chemical compounds. The sets consists of colored plastic balls in different diameters and follows a universal color code in representing various elements. The balls have one or more holes and may be inter-connected to each other by white plastic unions that represent valency bonds and the structures so formed represent molecules or compounds. See the detailed technical sheet of this product on our website

TECHNICAL INFORMATION ABOUT OUR PRODUCTS

In the annex of this catalog, starting from page 419, you will find a large amount of useful technical information about our products.

This information includes, among other things, technical specifications of different materials (glass, porcelain, etc.), compatibility tables, and general guidelines for laboratory material cleaning.

Visit the "Support" - "Technical Information" section of our website for further additional technical information about our products and to check for any updates.

LBG

VOLUMETRIC FLASK CLASS A WITH PLASTIC STOPPER

Made of borosilicate glass LBG 3.3. Designed according to ISO 1042, DIN 12664 and calibrated to contain (TC, In).
Batch certificate included, available on the website

**BATCH CERTIFICATES**

All volumetric glassware material (measuring cylinders, flasks, pipettes and burettes) made on the same production date do have the same batch number. During the quality control process each piece is verified individually, dismissing those not fulfilling the maximum tolerances permitted. The batch certificate mention the average value obtained for all the pieces of the same batch, the standard deviation and the control date.

This batch certificate can be downloaded free of charge on the website

INDIVIDUAL CALIBRATION CERTIFICATE

Glassware with an individual certificate do have an individual serial number added to the batch number. They are delivered with a certificate showing the real volume of this particular flask.

VOLUMETRIC FLASK CLASS A ACCORDING TO USP

Made of top quality 3.3 borosilicate glass. With plastic stopper. Designed according to ISO 1042, DIN 12664, USP standards and "Eichordnung" (the German Federal Weights and Measures Regulations). The conformity with "Eichordnung" is certified through the official German "H" sign on each flask according to DIN 12600. Calibrated to contain (TC, In). USP standards are more accurate than ISO 1042. Each flask has a batch number printed. Batch certificate included, available on the website

VOLUMETRIC PRECISION

Class A and **Class B** are designations from ASTM, indicating the relative tolerances of volumetric ware. ASTM is an international organization, that develops and publishes voluntary consensus technical standards for a wide range of materials, products, systems, and services.

Class A: Preferred choice for volumetric determinations, with high construction and accuracy requirements.

Class B: For general purpose. With the same basic design as Class A flasks but with volumetric tolerances within twice the specified range allowed for Class A.

astik's

LBG

MEASURING CYLINDER HEXAGONAL BASE, PMP, CLASS B

Made of Polymethylpentene (PMP/TPX®). Higher transparency, better chemical resistance and heat tolerance than PP. Autoclavable. Easy to read relief graduations. According to ISO 6706. Does not include a certificate

INSCRIPTIONS

Volumetric glassware is manufactured and calibrated according to international ISO requirements, it is marked with a set of inscriptions, respecting any specific standard associated with the requirements.

Volumetric pipettes also incorporate one- or two-color bands at the top end to facilitate the identification of the different volumes.

VOLUMETRIC PIPETTE WITH ONE MARK, CLASS A, ACCORDING TO USP

With coding band (according to ISO 1769), and designed according to ISO 648 standards, USP standards and "Eichordnung" (the German Federal Weights and Measures Regulations). The conformity with "Eichordnung" is certified through the official German "H" sign on each volumetric pipette according to DIN 12600. USP standards are more accurate than ISO 1042. Calibrated to deliver (TD, Ex). Batch certificate included, available on the website

It is necessary to know the possibilities and limitations of volumetric instruments, so that appropriate use can be made.

All volumetric material in good condition can be heated in the drying or sterilizing oven up to 180 °C without fear of volume variation. However, it should always be noted that irregular heating or a sudden change in temperature causes thermal stress which can lead to glass breakage.

EASY 20K+ BOTTLE TOP DISPENSER

Excellent chemical resistance. Made of PTFE, 3.3 borosilicate glass, polypropylene and FEP. High reproducibility of the volumes. The instrument can be screwed directly onto a GL 45 screwthread. For other bottles, use the accompanying adapters for the most common threads in laboratory bottles. Easy to clean and maintain. This instrument is designed for dispensing liquids, observing the following limits: temperature range: +15 to 40 °C of instrument and reagent, vapor pressure up to 500 mbar, density up to 2.2 g/cm³ and the viscosity up to 500 mm²/s. Bottle not included. Autoclavable. Warranty 2 years

EASY

EASY 20R+ BOTTLE TOP DISPENSER WITH RECIRCULATION

Excellent chemical resistance. Made of borosilicate glass and high chemical resistance materials. High reproducibility of the measurements. Re-circulable valve that prevents liquid leaks. Security lock. Includes calibration tool and 4 universal adapters for bottles. Easy to clean and maintain due to a springless valve design. This instrument is designed for dispensing liquids, under the following conditions of use: temperature range: +15 to 40 °C (instrument and reagent), vapor pressure up to 500 mbar, density up to 2.2 g/cm³ and viscosity up to 500 mm²/s. Each dispenser has been calibrated individually as per EN-ISO 8655. It has a unique serial number engraved and is delivered with a calibration certificate. Autoclavable. Check the complete table of chemical compatibilities on our website. Warranty 2 years

"CALIBRATION CERTIFICATE FOR FIXED VOLUME MICROPIPETTES

Delivered by a laboratory approved by ENAC under ISO 17025 standards, recognized by similar accreditation bodies in 50 countries, such as COFRAC (France), DKD (Germany) or UKAS (UK). The calibration procedure includes calibration at 1 point according to UNE-EN ISO 8655 standards (100% of the nominal volume). The laboratory issues calibration certificates for the micropipettes in digital format. Note: Company data are mandatory for issuing a certificate. Exclusive for new Labbox micropipettes, must be ordered with the micropipette. Delivery time 10 days

EASY 40 ELITE VARIABLE VOLUME MICROPIPETTE

EASY

Micropipettes of "Elite" series are the result of manufacturing with and innovative materials. The micropipettes EASY 40 Elite series offer a light and ergonomic design, clear and easy-to-read display with large numbers and small increments. Fully autoclavable at 121 °C without the need of disassembly. Intuitive operation with one hand. Easy calibration and maintenance. Besides each micropipette was individually calibrated according to EN-ISO 8655 standard, showing an embossed identifying serial number and delivered with a calibration report. Warranty 2 years

EASY

EASY W VARIABLE VOLUME MOTORIZED DIGITAL MICROPIPETTE

Innovative digital micropipette that combines the easy handling of a manual micropipette with the functions of an electronic micropipette: Pipetting, Mixing, Stepper and Dilution. Designed for maximum performance, accuracy and simple operation, can eliminate manual pipetting errors. Ergonomic design and small body dimensions to reduce hand and finger tiredness. Light weight nearly equal to a manual pipette. Easy self-calibration system. USB port to connect to the PC allows to calibrate using the manufacturer's software. Lithium-ion battery. Includes a wall stand with charging function. Each electronic micropipette has been individually calibrated according to EN-ISO 8655 standard, showing an embossed identifying serial number, and is delivered with a calibration report. Warranty 2 years

VARIABLE VOLUME MICROPIPETTE HIPETTE

DLAB

HiPette micropipettes offer premium performance for precise and comfortable pipetting. The design is ultra light, less than 75 grams and ergonomic. It is designed to offer minimal resistance to pipetting. The first stop offers a resistance of 4N and the second of 10N, thus avoiding variations in continuous handling and guaranteeing maximum reproducibility. It is fully autoclavable and resistant to corrosive agents. Easy to calibrate and maintain. In addition, each micropipette has been individually calibrated according to the EN-ISO 8655 standard, has a unique serial number engraved and is delivered with a calibration certificate. 2 year warranty

FILTERED MICROPETTE TIPS, POLYPROPYLENE PREMIUM LINE

Made of 100% virgin polypropylene. Specially designed for PCR and other molecular biology assays. DNase, RNase and Pyrogen-free. Compatible with most micropipette brands, check the specific list on our website. Packed in sterile polypropylene racks and bags of 1000 non-sterile tips. Natural colour. The non-sterile references can be autoclaved. Free sterilization certificate available on the website

TIPS IN CARDBOARD RACK PREMIUM LINE

An environmentally friendly solution that offers a unique combination of lightweight, durable, and biodegradable materials. Primarily made from 100% biodegradable material, reducing plastic consumption by 60% compared to traditional alternatives. Features a durable and robust design. After use, these racks can be easily crushed and disposed of, providing a cost-effective and eco-friendly solution. They are pre-sterilized (non-autoclavable) and optimized for stacking, eliminating the plastic burden associated with traditional racks while maintaining quality. Tips are made from 100% virgin polypropylene and are free from DNase, RNase, and pyrogens. Free sterilization certificate available on the website

ULTRA LOW RETENTION, MICROPIPETTE TIPS, POLYPROPYLENE PREMIUM LINE

Manufactured to create a "super hydrophobic" internal surface that reduces the binding and increases sample delivery accuracy. On average ULR tips reduce tip retention by nearly 85 % and decrease the standard deviation of the retained volume by more than 75 %. Human DNA-free and certified free from DNase, RNase and PCR inhibitors. Presented in sterile polypropylene racks. Natural color. Natural color. Free sterilization certificate available on the website

PP ROBOTIC TIPS, TECAN TYPE PREMIUM LINE

Premium-grade virgin polypropylene tips manufactured with USP class VI resins. Electrically conductive. Meticulously validated on the specific instrument they are designed for, ensuring precision. The included polycarbonate tray features color-coding for easy volume identification. Manufactured in an ISO-certified 9001 and 13485 facility, these tips are certified Endotoxin, Heavy Metals, RNase, DNase, and DNA-free, and are available in sterile, and filtered sterile formats, with a polyethylene filter to prevent aerosol contamination. Free sterilization certificate available on the website

EASY

DIGITAL BURETTE EASY 70

Volume range between 0,01 ml and 99,99 ml. The burette's momentum is motorized, which allows a precise and comfortable evaluation, supported by convenient bottle-top titration. Fully-digital controls on the parameters settings and burette process. Large LCD screen. All parameters can be set in the controller. Has an extra interface to store and export experimental data. Max. piston lift is 10 ml. Each digital burette was individually calibrated according to EN-ISO 8655 standard. Warranty 2 years. Check the complete table of chemical compatibilities on the website

To prevent leakage during use and to facilitate separation of the ground joints, lubricate the ground surfaces with non-toxic silicone laboratory grease. Apply a thin layer of grease around the top of the joint.

Although silicone grease is widely used for this purpose, you should always consider compatibility in the particular conditions of use. You can also insert a flexible PTFE gasket between the two frosted parts to be connected.

FLASK, ERLENMEYER, STANDARD GROUND MOUTH

Made of 3.3 borosilicate glass (upper grade). In compliance with ISO 4797 standard

GROUND JOINTS

Ground glass seals or joints are used in the laboratory to connect different pieces of glass to each other in a leak-proof manner or as an adjustment mode in glass stoppers. They can be of two types, male or female. They have a 1:10 conical shape (10% taper) and are designed according to the following measurements:

\varnothing - Diameter of the widest end of the frosted zone (mm)

L - Length of the frosted area (mm)

The measures that Labbox supplies follow the European standard ISO with common union sizes like: 10/19, 14/23, 19/26, 24/29, 29/32 and 45/40.

CONDENSER, STRAIGHT SHAPE (LIEBIG-WEST)

Made of borosilicate glass LBG 3.3. Hose connector is designed for tubing $\varnothing_{\text{inner}}$ 8 mm

QUALITATIVE FILTER PAPER, MEDIUM FLOW RATE

Low ash paper (<0.06%). Medium flow rate, suitable for a wide range of laboratory applications, frequently used in liquid clarification. It is used for rapid filtration of fine precipitates such as lead sulfate, hot calcium oxalate and calcium carbonate, as well as for routine techniques in the food and environmental industry. Weight 85 g / m², thickness 180 µm, filtration time 40 s, retention 10 - 13 µm, air flow 11 s / 100 ml / in², Herzberg 170 s / 100 ml, wet bursting strength > 30 kPa. Available in discs. Equivalence: Whatman 1

HARDENED QUANTITATIVE FILTER PAPER, LOW FLOW RATE

Hardened low ash paper (<0.015%) for non critical quantitative works. Slow filtration rate, with excellent retention of very fine particles, such as barium sulfate, zinc sulphide, etc. The hardened and glazed surface makes this paper suitable for use in the electronic industry, in carriers of electronic components or boards. Weight 90 g/m², thickness 180 µm, filtration time 300 s, retention 2 - 3 µm, wet bursting strength > 30 kPa. Available in discs. Equivalence: Whatman 50

ESSENTIAL OIL DETERMINATION APPARATUS, (CLEVENGER APPARATUS)

Made of heat resistant, low expansion, 3.3 borosilicate glass (upper grade). The sample is boiled in the boiling flask, steam rises in the assembly up to a condenser, and the condensate falls into the small extractor burette (water is returned to the tank through a channel whose position differs according to the density of the oil in relation to water). After some time, the oil volume collected in the burette can be directly measured. Includes 1000 ml round bottom flask (24/29), 300 mm Liebig condenser (24/29) and 10 ml extractor with 0 – 10 ml graduation and 0,1 ml subdivisions (24/29)

reference	capacity	type	pcs/pack	price/pack kr

"ROTARY EVAPORATOR, EVA180-B

Set of vertical glassware included (REVA-A01-001). Speed range from 20 to 200 rpm. 5 L water-oil heating universal bath with heating temperature range of RT to 180 °C, with a precise temperature control (± 1 °C in water) and that can be used independently. LED screen that displays heating temperature, rotation speed and timing. Patented condenser with excellent cooling effect (cooling surface 1700 cm²). Manual lift combined with auxiliary lift for precise positioning of the glassware. Evaporating flask with an ejector, easy to remove. Chemically resistant double PTFE system and patented pressure spring provide excellent sealing. External dimensions (mm): 440 x 320 x 450 (main unit) and 300 x 300 x 240 (heating bath). Weight: 7 kg (main unit) and 3 kg (heating bath). 100-240 V / 50-60 Hz, insulation rating IP20 (DIN EN60529). Warranty 2 years. It is recommended to combine with the vacuum pump VACU-R20-001. The most suitable rubber tubing references are RUTT-006-002 for the vacuum and LTXT-007-005 for the condenser

**"ROTARY EVAPORATOR, EVA180"**

Set of vertical glassware included (REVA-A01-001). Speed range from 20 to 280 rpm. Large 5 L water-oil heating bath with heating temperature range of RT to 180 °C, with precise temperature control (± 1 °C in water) and adjustable safety circuit. Large and easy to read digital LCD screen displays heating temperature, rotation speed and timing. Patented condenser with excellent cooling effect (cooling surface 1700 cm²). Motorized lift with quick-action, automatic release of evaporating flask to top position in case of power failure. Adjustable final position recognition to protect operator and sample against breakage. Evaporating flask with an ejector, easy to remove. Chemically resistant double PTFE system and patented pressure spring provide excellent sealing. External dimensions (mm): 583x465x457. Weight: 15 kg. PC can control and document all parameters via RS232 interface (USB). 100-240 V / 50-60 Hz, insulation rating IP20 (DIN EN60529). Warranty 2 years. It is recommended to combine with the vacuum pump VACU-R20-001. The most suitable rubber tubing references are RUTT-006-002 for the vacuum and LTXT-007-005 for the condenser

**RECIRCULATING CHILLER, RC-1**

This device offers a solution to a wide range of cooling needs in laboratories and industrial applications. It offers a cost-effective and environmentally friendly alternative to the use of tap water. The device can be used with different equipment that requires refrigerant-based condensation: rotary evaporators, distillation equipment, Soxhlet apparatus for extraction, Clevenger equipment, etc. The device is equipped with wheels and a refrigerant level indicator in the tank. It uses the refrigerant R-290 (with low environmental impact). It is recommended to use it with a 5 % glycol mixture in water. It allows the simultaneous connection of up to four different devices. Compliant with DIN 12876-2 standard. 230 V / 50 Hz. 1 year warranty

VACUUM PUMP, LBX V

For filter units, filtering flasks, desiccators and other laboratory applications. Compact and light weight. Piston powered vacuum pump, 100% oil-free transfer, clean and maintenance free. Adjustable vacuum. Vacuum gauge included. Silent running (50 dB). Overheating protection and overflow protection to prevent liquid from being sucked into the pump. Motor rotation: 1450 rpm. 220 V / 50 Hz. Warranty 2 years. It is recommended to combine vacuum pumps with a vacuum trap, essential in those cases where you work with a filter manifold

ACCESSORIES FOR LABORATORY BOTTLES WITH ISO THREAD

Caps and pouring rings of different colours for a better identification of the samples. PP caps and pouring rings have a thermal resistance up to 134 °C. PBTB caps with PTFE-coated silicone gasket and ETFE pouring rings can be used up to 200 °C, and have a higher chemical resistance than PP

NEW ISO REAGENT BOTTLES

We are expanding our family of LBG ISO bottles for reagents with the most commonly used capacities: 100 ml, 250 ml, 500 ml, and 1000 ml.

- Robust and durable
- Excellent chemical resistance
- Low thermal expansion
- GL 45 thread
- Compliant with ISO 4796

Complementing our large-format LBG ISO reagent bottles of 5000 ml, 10000 ml, and 20000 ml.

**AUTOCLAVABLE METALS**

Our range of Clink metalware features different manufacturing materials that impart various qualities to our products. The different alloys allow the products to exhibit varying degrees of corrosion resistance, depending on the intended function.

410 - Mostly composed of chromium (Cr) and carbon (C). Medium corrosion resistance. May experience surface corrosion in aggressive environments.**304** - Primarily composed of chromium (Cr), nickel (Ni), and carbon (C). Medium to high corrosion resistance. Not suitable for highly corrosive environments or exposure to strong acids or aggressive chemical cleaners.**316** - Mainly composed of chromium (Cr), nickel (Ni), and molybdenum (Mo). High corrosion resistance. Suitable for corrosive environments with the presence of chlorides, offering better resistance than 304 in such environments and against certain cleaning agents.**316L** - Has the same composition as 316. Excellent corrosion resistance due to molybdenum in its composition and its low carbon content, which reduces metal contamination and the likelihood of cracking.

EXTRACTION AND DISPERSIVE KITS FOR QuEChERS METHOD ACCORDING TO EN 15662

Extraction and dispersive kits for QuEChERS method (Quick, Easy, Cheap, Effective, Rugged and Safe) for sample preparation for analysis of multi-residual pesticides in fruits, vegetables and other foods.

The extraction kit (QECH-E10-050) includes 50 extraction pouches (4 g MgSO₄ + 1 g NaCl + 1 g tri-sodium citrate + 0.5 g Citrate di-sodium sesquihydrate) and 50 centrifuge tubes Premium Line of 50 ml.

Equivalent: Agilent 5982-5650

The dispersive kit for general fruits and vegetables (QECH-D22-050) includes 50 dispersive pouches (150 mg PSA + 900 mg MgSO₄) and 50 centrifuge tubes Premium Line of 15 ml. Equivalent: Agilent 5982-5056

The dispersive kit for fruits and vegetables with fats and waxes (QECH-D32-050) includes 50 dispersive pouches (150 mg PSA + 150 mg C18 + 900 mg MgSO₄) and 50 centrifuge tubes Premium Line of 15 ml.

Equivalent: Agilent 5982-5156

The dispersive kit for pigmented fruits and vegetables (QECH-D20-050) includes 50 dispersive pouches (150 mg PSA + 15 mg GCB + 900 mg MgSO₄) and 50 centrifuge tubes Premium Line of 15 ml.

Equivalent: Agilent 5982-5256

The dispersive kit for highly pigmented fruits and vegetables (QECH-D24-050) includes 50 dispersive pouches (150 mg PSA + 45 mg GCB + 900 mg MgSO₄) and 50 centrifuge tubes Premium Line of 15 ml.

Equivalent: Agilent 5982-5356

VACUUM MANIFOLD FOR SOLID PHASE EXTRACTION SPE

Compatible with SPHE and standard luer-end SPE cartridges. Made of transparent glass, high resistance to corrosion. Withstands more than 96 kPa (720 mm Hg) vacuum pressure with no deformation, long-term use. Individual valves allow vacuum control for each cartridge improving reproducibility. Joint highly resistant to corrosion and PTFE internal tube rack. Includes gauge, lid, collection rack, solvent guide needles and silicone tube. Warranty 2 years

BRANCHIA

HYDROPHILIC MCE SYRINGE FILTERS, NONSTERILE

Suitable for clarification or sterilization of most typical aqueous samples. It is ideal for biological samples or culture media filtration. Membrane made of hydrophilic M.E. Cellulose (MCE), very uniform porosity and high protein retention. Housing: Polypropylene (PP), green colour. Designed with connectors: FLL/MSL

The Luer Lock ensures a tight seal, being crucial in medical and laboratory environments for the precise administration of liquids. To connect it to the filter, the tip with the Luer Lock thread is positioned at the top connection of the filter and twisted clockwise, achieving a secure coupling and preventing possible leaks.

BRANCHIA**HYDROPHILIC CA SYRINGE FILTERS**

Ideal for aqueous based samples and suitable for all those applications in which the maximum recovery of proteins is required. Membrane made of Cellulose Acetate (CA) inherently hydrophilic. Low protein retention. High mechanical strength. Housing: Polypropylene (PP), fuchsia colour. Designed with connectors: FLL/MSL. Sterile reference is individually packed and sterilized by Gamma irradiation. Free sterilization certificate available on the website

MULTI-PURPOSE CLINICAL CENTRIFUGE, DM0636

Multi-purpose clinical centrifuge ideal for the centrifugation of samples in clinical, chemistry, cytology, research and industrial laboratories. Speed can be set from 300 rpm to 6000 rpm/4300xg. Speed accuracy: ± 20 rpm. Allows working with oscillating and fixed angle rotors and in continuous mode or with a timer that can be set up to 99 min. Automatic rotor identification. Up to 9 programmes can be stored. Fast acceleration and deceleration (Acceleration: 9 seg / Braking: 10 seg) to ensure optimal separation. Maintenance-free brushless DC motor. Sound-alert function. Door interlock, over speed detector, automatic internal diagnosis. Dimensions: 445 x 579 x 269 mm. A stainless-steel swing-out rotor with 4 positions (CCEN-A10-001) and supports and adapters for 100 ml, 85 ml, 50 ml, 15 ml and 3-7 ml tubes (CCEN-A11-004) are included. The CCEN-A10-001 rotor can be combined with the A11, A12, A13 and A14 supports and adapters in the table below. Rotors A15-A21 do not require supports or adapters. 100-240 V / 50-60 Hz. Warranty 2 years

THE IMPORTANCE OF BALANCING YOUR CENTRIFUGE ROTOR

It is crucial that the weight on the rotor is balanced evenly with respect to the axis of rotation. If the rotor is not balanced, at a higher speed the centrifuge will make more noise and generate vibrations, which can lead to poor centrifugation or even equipment breakage. To achieve a good balance, always place the tubes facing each other, placing a tube of the same dimensions and the same weight (sample quantity) on the opposite side.

WARRANTY AND TECHNICAL SERVICE

The warranty period is mentioned for each product in this catalogue. This period is of minimum 1 year and for some items up to 5 years. For further information, please feel free to contact your local distributor or our Customer Service.

**MINI CENTRIFUGE, MC7000**

Ideal for quick spin downs and micro filtration. 2 lid colors. Fixed speed 7000 rpm (2680×g). 2 rotors delivered with the stirrer: 8 x 2 ml/1.5 ml tube and 16 x 0.2 ml PCR tube. Noise level ≤45dB. The centrifuge can be started and stopped by closing and opening the lid. 200-240 V / 50-60 Hz. Warranty 2 years

**HIGH-SPEED MINI CENTRIFUGE, MC10K**

This centrifuge is well-suited for rapid spins, microfiltration of samples, cell separations, and numerous other routine laboratory tasks. Speed range of 2,000 - 10,000 RPM (in 1,000 RPM increments). It is designed to accommodate 12 tubes of 0.5/1.5/2.0 ml, 44 tubes of 0.2 ml, or 4 strips of 8 tubes of 0.2 ml. It achieves a maximum RCF of 6,708 x g for 0.5/1.5/2.0 ml tubes and 6,596-7,490 x g for PCR strips. The noise level is less than 58 dB. It features rapid acceleration and braking (acceleration time: 1 sec / braking time: 2 sec) and is powered by a brushless DC motor, ensuring quick and effortless rotor acceleration to the set speed. The timer can be set from 10 seconds to a maximum of 20 minutes. External dimensions (mm): 130 x 180 x 210. It operates on 100-240 V / 50-60 Hz. 2-year warranty

**HIGH SPEED MINI CENTRIFUGE, MC15K**

High Speed Micro centrifuge is ideal for biochemical and chemical analysis of microsamples, sedimentation of biological components, etc. Powerful centrifugal force (R.C.F): 15100 x g (increment: 100 x g) and Max. speed (R.P.M): 15000 (increment: 100 rpm). Speed Accuracy: ±20 rpm. The rotor included with the centrifuge (MCEN-A05-001) is designed for a capacity of 12 x 1.5/2.0 ml tubes or 12 x smaller 0.2 ml and 0.5 ml tubes through use of adapters (not included). High strength plastic rotor with CE mark. Low noise ≤ 54 dB. Delivers fast acceleration and deceleration (Acceleration: 11 seg / Breaking time: 9 seg). Brushless DC motor accelerates quickly and effortlessly the rotor to the set speed. Operation can be timed from 30 seconds to 99 minutes or continuous running ('HOLD' position). Sound-alert function. There is also door interlock, over speed detection, over-temperature detection and automatic internal diagnosis. External dimensions: 140 x 255 x 245 mm. 110-240 V / 50-60 Hz. Warranty 2 years

CLINICAL CENTRIFUGE, DM0412

Clinical centrifuge applications with small sample volumes in clinical, industrial and research laboratories. Easy to program and operate to achieve high accuracy with speed control. Rotor speed can be set and concisely displayed by RPM or G-force from 300 rpm to a max. of 4500 rpm/2490xg (increment: 100 rpm). Speed accuracy: ±20 rpm. The rotor included with the centrifuge (CCEN-A01-001) is designed and suitable for use with tubes from 1,5 ml vacutainers to 15 ml conical tubes, using the included adapters and inserts.

The following configurations are possible:

- > 8 x 15ml conical tubes (Ø17xL120mm) - No adapters required
- > 12 x 1,5-5ml vacutainers (Ø13xL82mm) - 1 x CCEN-A02-012 and 1 x CCEN-A03-012 required per tube
- > 12 x 4-7 ml vacutainers (Ø13xL106mm) - 1 x CCEN-A02-012 required per tube
- > 12 x 4-7 ml vacutainers (Ø16xL75mm) - No adapters required
- > 12 x 8,5-10 ml vacutainers (Ø15xL107mm) - No adapters required
- > 12 x 2,7-3 ml collection tubes (Ø11xL66mm) - 1 x CCEN-A02-012 and 1 x CCEN-A03-012 required per tube
- > 12 x 7,5-8,2 ml collection tubes (Ø15xL92mm) - 1 x CCEN-A02-012 required per tube

Delivers fast acceleration and deceleration (Acceleration: 20 seg / Breaking time: 20 seg). Maintenance-free brushless motor. Pressing and holding PULSE key for quick spin function. Operation can be timed from 30 seconds to 99 minutes or continuous running ('HOLD' position). High strength plastic rotor with CE mark. Sound-alert function. Door interlock, over speed detector, automatic internal diagnosis.

Dimensions: 245 x 255 x 140 mm. 100-240 V / 50-60 Hz. Warranty 2 years

HAEMATOCRIT CENTRIFUGE, DM1424

Used for the determination of erythrocyte fractions in blood, as well as for micro solution separations. It provides haematocrit values (HCT) for biochemistry, immunity, genetics, blood separation and general clinical tests for diagnostic purposes. The rotor speed can be set from 200 rpm to a maximum of 12000 rpm /13680xg. Speed accuracy: ±20 rpm. High-strength aluminium rotor with capacity for 24 capillary tubes. It allows to work continuously or to set the timer from 30 seconds to a maximum of 99 minutes. Fast acceleration and braking (acceleration time: 30 sec / braking time: 30 sec). Maintenance-free brushless motor. Sound alarm function. It also has a lid lock, detection in case of overspeed and detection in case of excess temperature. Dimensions: 364 x 280 x 2274 mm. 200-240 V / 50-60 Hz. Warranty 2 years

HMSC-12H-001	haematocrit centrifuge DLAB DM1424	1	25374

LOW SPEED MINI CENTRIFUGE, MC5000

Ideal for analysis of samples such as blood and urine. Relative Centrifugal Force (R.C.F.): 2350 xg (increment: 10 xg) and maximum speed (R.P.M.): 5000 (increment: 20 rpm). Speed accuracy: ± 20 rpm. The rotor is designed for a capacity of 6 tubes of 15 / 10 / 7 / 5 ml or 6 tubes of 1,5 / 2 ml (adapters included). Able to store two programs and two deceleration speeds according to requirements. Brushless DC motor quickly and effortlessly accelerates the rotor to the set speed. The timer can be set from 30 seconds to a maximum of 99 minutes. Sound-alert function. There is also door interlock, over speed detection, over-temperature detection and automatic internal diagnosis. External dimensions : 300 x 240 x 180 mm. 110-240 V / 50-60 Hz. Warranty 2 years

HIGH SPEED MICRO CENTRIFUGE, D3024

High Speed Micro centrifuge is ideal for biochemical and chemical analysis of microsamples, sedimentation of biological components, etc. Special multi-flow air cooling design with patent ensures fast cooling of the rotor and low energy consumption. Speed can be set from 200 rpm to a max. of 15000 rpm/21380xg. Speed accuracy: ± 10 rpm. Unique temperature display, appropriate for gentle handling of sensitive samples. Bio-safe rotor/anti-sample overflow prevents accidental leakage in centrifugal process allowing risk-free microbial contamination. High strength aluminum allow rotor can be fully autoclaved for unlimited lifespan. 5 rotors and adapters are optional and suitable for frequently used capacities: 24 tubes for 0,2 ml to 2,0 ml, and 18 tubes of 5,0 ml. The rotor included with the centrifuge (HSMC-A01-001) is designed for a capacity of 24 x 1.5/2.0 ml tubes. Quiet running, noise level ≤ 54 dB. Operation can be timed from 30 seconds to 99 minutes or continuous running. Delivers fast acceleration and deceleration (Acceleration: 25 seg / Breaking time: 25 seg). Maintenance-free brushless DC motor. Sound-alert function. Door interlock, over speed detection and over-temperature detection. Dimensions: 280 x 364 x 266 mm. 100-240 V / 50-60 Hz. Warranty 2 years

reference	description	pcs/pack	price/pack kr
HSMC-15K-001	high speed micro centrifuge DLAB D3024 series	1	20025

The goal of the centrifugation is often to separate the solution components according to their density. The densest component will end up at the bottom of the tube while the less dense part would remain at the top. Usually, we call these parts or phases supernatant (top) and precipitate (it may be solid or liquid). The supernatant is normally free of precipitate and has a lower density. On the other hand, when the residue at the bottom is solid, it is then called pellet. Depending on the nature of the assay it may be necessary to recover the supernatant, usually by pipetting or decanting, or the pellet which you recover by removing the supernatant.

HIGH SPEED REFRIGERATED MICRO CENTRIFUGE, D1524R

High Speed Micro centrifuge is ideal for biochemical and chemical analysis of microsamples, sedimentation of biological components, etc. Special multi-flow air cooling design with patent ensures fast cooling of the rotor and low energy consumption. Speed can be set from 200 rpm to a max. of 15000 rpm/21380xg. Speed accuracy: ±10 rpm. Unique temperature display, appropriate for gentle handling of sensitive samples. Bio-safe rotor/anti-sample overflow prevents accidental leakage in centrifugal process allowing risk-free microbial contamination. Pre-cooling system, the compressor will cool automatically as soon as the set temperature is lower than the room temperature. Temperature range -20 to 40 °C. High strength aluminum allow rotor can be fully autoclaved for unlimited lifespan. 5 rotors and adapters are optional and suitable for frequently used capacities: 24 tubes for 0,2 ml to 2,0 ml, and 18 tubes of 5,0 ml. The rotor included with the centrifuge (HSMC-A01-001) is designed for a capacity of 24 x 1.5/2.0 ml tubes. Quiet running, noise level ≤54 dB. Operation can be timed from 30 seconds to 99 minutes or continuous running. Delivers fast acceleration and deceleration (Acceleration: 25 seg / Breaking time: 25 seg). Maintenance-free brushless DC motor. Sound-alert function. Door interlock, over speed detection and over-temperature detection. Dimensions: 280 x 364 x 266 mm. 100-240 V / 50-60 Hz. Warranty 2 years

"ANALYTICAL AND SEMIMICRO BALANCE, AS PLUS"

Analytical balances series AS are in the standard-high segment. The best value for money and features available. Applications: parts counting, specific density, %, below balance weighing, check weighing, GLP procedures, data bases of: users, products, weighments, etc. ALIBI memory. Spacious weighing chamber with easy mounting system and antistatic coating option (for scales with an accuracy of 0.01 mg), level indicator. Backlit LCD display. Communication interface: RS-232, 2x USB-A (rear and side), 1x USB-C (rear), Kensington™ connector and WI-FI optional. 2 versions available: external calibration and internal calibration. External dimensions (L x H x W): 351 x 205,5 x 348 mm. The scale is delivered with an instruction manual, warranty letter, CD with user manual, drivers for connection to a PC and a Quality Test Report. Optional: factory calibration certificate (BAAC-RC2-001) must be ordered together with the scale. Warranty 2 years. 100-240 V / 50-60 Hz. Delivery time: 10 - 20 days

i EC TYPE APPROVAL SCALES AND THE CE M24 STICKER

According to the EU 2014/31/UE and 2009/23/CE directives, balances and scales used in the areas of commerce, health and public administration must be verified. The applications requiring the mandatory use of EC type approval instruments are specified in article 1.2(a) of the Directive and are:

- Determination of mass for commercial transactions
 - Determination of mass for the calculation of a toll, tariff, tax, bonus, penalty or similar type of payment
 - Determination of mass for the application of laws or regulations and expert opinion given in court proceedings
 - Determination of mass in the practice of medicine for the weighing of patients for the purpose of monitoring, diagnosis and medical treatment
 - Determination of mass for making up medicines on prescription in a pharmacy and determination of mass in analyses carried out in medical and pharmaceutical laboratories
 - Determination of price on the basis of the mass for the purpose of direct sales to the public and the making-up of pre-packages
- Balances and scales for which CE conformity has been established according to the above mentioned Directives are identified by a sticker bearing a capital letter 'M' printed in black and the last two digits of the year of the marking placement

"PRECISION BALANCE, EQUINOX"

Ideal for research and quality assurance facilities, science education, precision counting and general laboratory tasks. Applications: check weighing, density, statistics, formulation/recipe, textile, parts counting, percentage weighing, dynamic weighing. Large coloured touch screen display provides intuitive operation with icon-driven menus and accessible applications. Built-in memory for storing products and settings. RS-232 interface. The scale is delivered with an instruction manual. Optional: factory calibration certificate (BAAC-CAL-001) must be ordered together with the scale. 200-240 V / 50-60 Hz. Warranty 5 years. Delivery time: 10 - 20 days

HOW TO CHOOSE A SCALE?

- 1** Capacity: What is the maximum weight that we will need to weigh on the scale?
- 2** Precision: What level of accuracy do we require in the results?
- 3** Usage: What is it going to be used for? Is it for pricing, commercial transactions? Where will it be installed?

"PRECISION BALANCE, SOLIS"

Excellent performance and simple operation for demanding laboratories. Ideal for research and quality assurance facilities, science education, precision counting and general laboratory tasks. Applications: check weighing, parts counting, dynamic weighing, percentage weighing, density, formulation/recipe (stores up to 99 ingredients). High resolution graphic display, simple-use keypad and intuitive features. RS-232 interface. Level indicator and adjustable feet. Multiple languages. The scale is delivered with an instruction manual. Optional: factory calibration certificate (BAAC-CAL-001) must be ordered together with the scale. 200-240 V / 50-60 Hz. Warranty 5 years. Delivery time: 10 - 20 days

"PRECISION BALANCE, WLC"

Balances series WLC are designed for fast and precise mass determination in laboratory and industrial conditions. AC power or rechargeable battery operation. RS-232 interface. Stainless steel weighing platform and backlit LCD display. Applications: parts counting, animal/dynamic weighing, check weighing, %, below balance weighing, impact test. 2 versions available: external calibration and internal calibration. External dimensions (L x H x W): 244 x 174 x 88 mm (models with pan size 128 x 128 mm and 195 x 195 mm), 351 x 375 x 87 mm (models with pan size 290 x 360 mm) and 502 x 480 x 103 mm (models with pan size 400 x 500 mm). The scale is delivered with an instruction manual, warranty letter, CD with user manual, drivers for connection to a PC and a Quality Test Report. Optional: factory calibration certificate (BAAC-RC3-001 <60 kg or BAAC-RC4-001 >60 kg) must be ordered together with the scale. 100-240 V / 50-60 Hz. Warranty 2 years. Delivery time: 10 - 20 days

"PORTABLE PRECISION BALANCE, HCB"

Applications: weighing, %, parts counting, below balance weighing, weight accumulation. RS-232 and USB interfaces. Smart housing design lets you safely stack balances on top of each other for convenient storage. Three-point ShockProtect™ overload protection (allows the balance to withstand up to 200 kg of weight without damaging the weighing mechanism). Internal calibration with built in mass. Lock down mounting slot for Kensington™ type lock and cable. Internal rechargeable battery with auto power off and low-battery indicator. Includes removable draftshield, except BHCB-6K0-001. External dimensions 170 x 245 x 80 mm. 200-240 V / 50-60 Hz. The scale is delivered with an instruction manual. Optional: factory calibration certificate (BAAC-CAL-001) must be ordered together with the scale. Warranty 3 years. Delivery time: 10 - 20 days

COMPACT PORTABLE BALANCE, CBX

Portable and easy to use balance, with weighing and part counting function. Robust ABS housing and 148 x 148 mm plate made of 304 stainless steel. External calibration. It operates with a 216 h battery rechargeable via low voltage USB, cable included. Its size and charging mode make it ideal for fieldwork. The bright backlit display makes it easy to read in most lighting conditions. Large digits (18 mm) for quick and easy reading. With adjustable feet and bubble position adjustment for accurate result anywhere. External dimensions 155 x 255 x 60 mm. The scale is delivered with an instruction manual. Optional: factory calibration certificate (BAAC-CAL-001) must be ordered together with the scale. Warranty 2 years. Product in stock for instant delivery, with certificate, delivery time: 10 - 20 days

“INDUSTRIAL SCALES, GFK

Applications: weighing, parts counting, %, dynamic/animal weighing, check weighing, check counting. Easily accessible internal rechargeable battery with auto-off to save battery life. Large backlit LCD display with capacity tracker and check weighing LED lights to show acceptable limits. Parts counting with freely selectable sample sizes. Automatic accumulation. Bi-directional RS-232 output for connection to computers and printers with multi-language print-outs. ABS plastic indicator and stainless steel pan. External dimensions 600 x 950 x 860 mm (BGFK-6Q0-001), 400 x 620 x 860 mm (all other models). The scale is delivered with an instruction manual. Optional: factory calibration certificate (BAAC-CAL-001) must be ordered together with the scale. Warranty 5 years. Delivery time: 10 - 20 days

DENSITY DETERMINATION KIT

The density determination kit consists of an apparatus which allows the user to weigh a sample in air and then weigh the same sample in water or any other liquid with a known density. The software in the balance takes the operator through the process and finally displays the resulting density on the LCD in g/cm³, compensating for temperature and for the use of alternative fluids when calculating the density of solids. Delivery time 10 - 20 days

“ANTI-VIBRATION TABLE

Designed for use in the laboratory or metrology room to provide suitable working conditions for devices that are sensitive to vibrations and shocks. Table dimensions: 770 x 680 x 815 mm. Easy to set up, light weight mild steel. Adjustable levelling feet to take care of uneven floor. Scratch-proof top slab to avoid surface damage and marble finish (dimensions: 410 x 270 x 115 mm). Delivery time 20 days. Warranty 2 years

reference	description	pcs/pack	price/pack kr
BAAC-A24-001	anti-vibration table, RADWAG	1	15734

“ANTI-VIBRATION TABLE

The table is composed of two independent structures, one assembled inside another. The interior structure is made of cold rolled steel tube and finished in epoxy-polyester paint. This structure integrates the silentblock system, on which four marble stones are placed to ensure the absence of vibrations. The surface is topped in compact phenolic Trespa Toplab, which will form the anti-vibration zone. The outer structure is also composed of cold-rolled steel and epoxy-polyester paint, on which falls the work surface of compact phenolic Trespa Toplab. As this structure is completely independent, the vibrations are not transmitted to the interior structure. Dimensions of the table: 900 x 750 x 900 mm. Includes a leveling system to save soil irregularities. Delivery time: 2 weeks

DIGITAL MAGNETIC STIRRER WITH HEATING UP TO 550 °C, MS7-H550-PRO, 20L

Glass Ceramic heating plate of 184x184 mm. Stirring speed adjustable between 100 and 1500 rpm (resolution ± 1 rpm). Temperature adjustable up to 550 °C on plate. Capacity: 20 L. Heating power: 1050 W. PID temperature technology allows a very precise control of the heating process, reaching quickly the target temperature and enhancing control accuracy. LCD display that shows the temperature (±0,1°C) as well as the set and actual speed. Separated safety circuits, automatically stopping heating when temperature goes over 580 °C. HOT warning indicates residual hotplate temperature, even if switched off. Includes an external temperature sensor Pt1000 that allows a real-time temperature control (accuracy ±0,2°C). Support clamp for temperature sensor STIH-A04-001 not included. DC brushless motor, maintenance free. For magnetic bars from 30 mm up to 80 mm long. Supplied with a magnetic bar. External dimensions (L x W x H): 360 x 215 x 112 mm. 200-240 V / 50-60 Hz, insulation rating IP21 (DIN EN60529). Warranty 2 years

**DIGITAL THERMOSTATIC BLOCK WITH SHAKING, HCM100-PRO**

Excellent mixing and temperature control to ensure reproducible results. Wide range of applications, such us gene synthesis and purifications, protein and gene denaturation, enzymatic reaction, bacterial growth, etc. Compatible with a wide range of tubes (includes DTBW-A02-001, rest of blocks are not included). Mixing frequency: 200-1500 rpm. Max. heating temperature: 100 °C, Max. cooling temperature: RT-15 °C. Heating: 5,5 °C/min, cooling: 5 °C/min and 0,5 °C/min under room temperature. Temperature control accuracy: ±0,5 °C. Temperature uniformity: Max. ±0,5 °C. Mixing orbit: 3 mm. Programmable in multiple steps (up to 9 programs can be saved). Overtemperature protection: 150 °C. Dimensions: 200 x 235 x 120 mm. Weight: 7,3 kg. 200-240 V, 50-60 Hz, 200 W. Warranty 2 years

HEATING MANTLE, HM01 SERIES

Heating mantle with electronic temperature regulation for distillation, digestion, evaporation, extraction and boiling. Maximum mantle temperature of 450 °C at the surface (the maximum temperature reached by the liquid is lower due to heat loss). Continuous operation. Fast, uniform and safety temperature regulation. Featured by anti-corrosion, age-resistant, durable and safe. Easy to operate. Includes aluminum rod and retort clamp for thermometer holding. 220 V / 50 Hz. Warranty 2 years

**HEATING MANTLES**

Heating mantles are essential laboratory devices used to **apply controlled heat** to glassware such as round-bottomed flasks during **chemical reactions, distillations, and other processes**.

When selecting a heating mantle, an important factor to consider is the **size compatibility with the vessel**. Only vessels with an adequate size guarantee a safe and homogenous heating process, as the heat transfer is based on direct contact between the surface of the heating mantle and the vessel.

A reliable heating mantle offers **efficient heating, durability, ease of maintenance and user-friendly operation**, thereby being a useful instrument for a wide range of laboratory processes and experiments.

i WHAT ARE LABORATORY CRUCIBLES AND HOW TO CHOOSE THE RIGHT MODEL?

Laboratory crucibles are containers with **high chemical and thermal resistance** used for heating, calcination, dehydration, burning, or melting substances. Their applications are varied and include **high-temperature chemical reactions** or different **analytical methods**.

There is a variety of crucible types, so when choosing a crucible, it is important to consider factors such as the **material** (porcelain, quartz, alumina, etc.), **size** (chosen based on the sample size), **shape** (high and low forms, boat, casserole with handle, etc.), **temperature**, or **chemical compatibility**.

MATERIAL	MAX. TEMP.	CHARACTERISTICS
Porcelain	1000 °C	<ul style="list-style-type: none"> high thermal resistance (however, it is essential to heat and cool it gradually) high chemical inertia (even to most acids, but not to hydrofluoric acid or alkaline substances) high durability relatively economical material
Quartz	1100 °C	<ul style="list-style-type: none"> high thermal resistance high chemical inertia (even to most acids, but not to hydrofluoric acid) easy to clean transparent, allowing observation suitable for chemical reactions and the melting of samples
Alumina	1750 °C	<ul style="list-style-type: none"> very high thermal resistance high chemical resistance highly versatile and widely used
PTFE	280 °C	<ul style="list-style-type: none"> high thermal resistance compared to other thermoplastic materials high chemical inertia easy to clean (thanks to the smooth surface)
Nickel	600 °C	<ul style="list-style-type: none"> thermal conductivity high chemical resistance to certain substances (such as chlorine), but less resistant to others (like certain acids) high durability easy to clean
Stainless steel	800 °C	<ul style="list-style-type: none"> thermal conductivity also suitable for cryogenic applications (resistant to low temperatures down to -180 °C) high durability easy to clean

To prolong the life of the porcelain material, use gradual heating and cooling speeds. Use an oven or hot plate as an intermediate step when fast heating/cooling speeds are required. When using a bunsen burner, increase the flame intensity gradually. Avoid contact of the hot material with a cold surface. Carefully inspect the laboratory material before each use and never use material that appears to be defective.

ALUMINA CRUCIBLE HIGH FORM PREMIUM LINE

Made of alumina 99,7 % withstanding temperatures up to 1750 °C. Unglazed. Do not include cover

**LABBOX QUALITIES**

In order to fulfil all of our customer's requirements, some of our products are available in three different qualities:

1. *Basic Line*: The most competitive option
2. *Standard Line*: The best price-quality ratio
3. *Premium Line*: They are differentiated from the standard products by some relevant characteristics that make them suitable for specific applications destined to our most demanding clients, always keeping an excellent price-quality ratio

For example:

Premium Line tips are DNase, RNase and PCR inhibitors-free certified, making them specifically designed for PCR techniques

**POOLLAB 2.0 PHOTOMETER**

Portable photometer, ideal for pool water analysis. It offers the possibility to measure 24 different parameters (not all reagents included), such as cyanuric acid, chlorine, pH, and others. Thanks to the triple cuvette, it is possible to measure three parameters simultaneously.

The basic kit of PoolLab 2.0 photometer (POLP-BK2-001) includes 1 PoolLab 2.0 with large color display, Bluetooth, and WiFi, waterproof IP68, 1 triple measurement cuvette, 1 light shield, 3 plastic stirring rods (white, blue, red), 1 10ml syringe, 3 AA batteries, 1 manual, software/app/cloud, 1 bag, and an initial pack of reagents POLP-RRF-001. The initial reagent pack (POLP-RRF-001), photometer grade, includes: 20 tablets phenol red, 20 tablets DPD N° 1, 10 tablets DPD N° 3, 10 tablets alkalinity-M and 10 tablets CYA-test. These reagents allow measuring the following parameters: alkalinity, chlorine (tablet mode), cyanuric acid, pH (tablet mode). The additional reagents that allow for the measurement of other parameters are the references PRLR and POLR

DIGITAL DRY BATH (+5 TO 150°C), CODB150

Dry heating system by metal blocks (7.6 x 9.6 cm). Temperature adjustable up to 150 °C (accuracy ± 0.2 °C (single position)/0.5 °C (dual position)). Function mode: Continuous with alarm timer (1' - 99h 59'). LED display for temperature and time. 230v/50 Hz. Insulation rating IP21 (DIN EN60529). Connection for external temperature sensor DIN 12878. Warranty 2 years. No block included. Suitable for COD digestion (148 °C), TOC determination (120 °C), Chromium-total determination (100 °C), Phosphate-total determination (100 °C) and Nitrogen-total determination (100 °C)

PORTABLE TURBIDITY METER (ISO 7027), M10

High performance portable turbidity meter for process control or field measurements. Measurement according to nephelometric method (90 °) ISO 7027. Range: 0 - 1100 NTU / FNU, 0 - 275 EBC, 0 - 9999 ASBC. Accuracy $\pm 2\%$ (0 - 500 NTU), $\pm 3\%$ (501 - 1100 NTU). 2 to 5 calibration points with formazine standards. Backlit LCD screen and auto-off function. Stability indicator that recognizes the measurement as stable and expanded memory with a capacity of 100 readings transferable via USB interface. 3x1,5V AA batteries (not included), adapter or USB. Includes case, sample vials, standards (0.02 - 200 - 500 - 1000 NTU, solutions do not include certificate) and cleaning cloth. Warranty 2 years

"OIL TASTING BATH, 6 PLACES

Housing made of AISI 304 stainless steel. Non-removable fixed aluminium box. Heating through a flat element covering all the box surface. Temperature adjustment with a digital thermometer, from room temperature 5 °C up to 40 °C. 3-digits temperature display with accuracy 0,1 °C. External dimensions: 185 x 80 x 315 mm. Maximum temperature: 30 °C. Consumption: 125 W. Aluminium box specially designed for edible oil tasting according to European Union regulation L.248/67. Designed following recommendations of IOC (International Olive Council). Manufactured as per CE directives. 230 V / 50 Hz. Warranty 2 years. Delivery time 3 weeks. It is recommended to take together with the tasting glasses (OLIV-001-006) and watch glasses dish, 60 mm (WDIN-060-010)

Ibx | "KJELDAHL DIGESTION SYSTEM, KJD10"

Graphite digester with advanced high temperature infrared radiation heating technology, controlled platform and anti-oxidation treatment, corrosion-resistant design for long lasting life. Temperature range: RT + 5 °C to 450 °C, quick temperature rise (400 °C in 25 minutes), accuracy: ± 1 °C. Linear and curve temperature rise modes. Offers 20 digestion programs for control of temperature rise curves. Capacity: 20 positions of 300 ml tubes. 5,7 inch color screen, easy to use.

The standard configuration includes a waste gas collection hood but must be combined with the KJDL-A01-001 exhausting system (not included) to condensate and neutralize the corrosive gas waste generated in the experiment. The KJDF1 exhausting system has a triple filtration system, avoids spilling or emptying and has adjustable suction pressure with a low noise, anticorrosion vacuum pump and a PTFE anticorrosion pipe design. Environmentally friendly.

It is recommended to combine with the DTU3-042-*** digestion tubes (10 tubes included) and the KJDL-CAT-250 catalyst tablets. High temperature alarm and overload protection. Power: 3600 W. 220 V ± 10%, 50 Hz. Warranty 1 year

Ibx | "KJELDAHL AUTOMATIC DISTILLER, KJD20"

Fully intelligent software that can complete sample distillation within minutes. Automatic addition of NaOH, H₂O y H₃BO₃. Automatic reagent quantification and filling. Automatic cleaning system that further enhances measurement precision. Easy to operate interface.

Measuring range: 0,1 mg – 240 mg N. Recovery ≥ 99,5%. Sample capacity: 6 g/sample (solid) or 16 ml/sample (liquid). Distillation speed: 3-6 min/sample. 4,3 inch LCD color screen. Manual and automatic operation modes. Automatic alkali pipeline washing function. Automatic or manual filling mode. Programmable distillation time with automatic alarm upon completion.

Emergency stop, automatic fault detection, over temperature protection, over pressure protection and intelligent audible and visual alarm system. Calibration function: dilution water calibration, alkali solution calibration, boric acid solution calibration and washing flow calibration.

Safety door, digestion tube and cooling water condition displayed at real time when running. Built in testing model to detect the current condition of most functions. It is recommended to combine with the DTU3-042-*** digestion tubes (10 tubes included). Power: 1300 W. 220 V ± 10%, 50 Hz. Warranty 1 year

THE THREE PHASES OF NITROGEN DETERMINATION BY THE KJELDAHL METHOD

DIGESTION

A homogenized sample is brought to boil in concentrated sulfuric acid with a catalyst that accelerates digestion. The result is an ammonium sulfate solution $[(\text{NH}_4)_2\text{SO}_4]$.

DISTILLATION

An excess base is added to the result of the digestion to convert the ammonium salt (NH_4^+) to ammonia gas (NH_3). The gas passes through the equipment's distillation system and is condensed in an Erlenmeyer flask containing a receptor solution.

TITRATION

The amount of ammonia in the receptor solution is quantified. The amount of nitrogen in a sample can be calculated from the quantified amount of ammonia ions in the receptor solution.

**METRIA****LITMUS PAPER STRIPS**

Basic indicator paper when a precise pH value is not needed. Blue litmus paper turns to red when a solution goes from basic to acidic while red litmus paper turns to blue when a solution goes from acidic to basic. Neutral litmus paper turns to blue when going to basic and red when going to acid. Each plastic box contains 10 booklets with 20 paper strips each

PHEL-PB2-001	1 m cable + BNC	1	1670

**METRIA****GLASS BODY pH ELECTRODE, INTENSIVE USE**

For general use and high accuracy measurements in liquids and non aqueous samples. Reference element Ag/AgCl, liquid refillable electrolyte (3M KCl/AgCl) and double ceramic diaphragm. pH range 0 - 14, maximum service temperature 80 °C. Dimensions: 120 x 12 mm. Available with two types of connections: BNC connector with fixed cable (length: 1 m) or S7 connector (delivery without connecting cable, to be ordered separately)

reference	conector	pcs/pack	price/pack kr
PHEL-GB2-001	1 m cable + BNC	1	2293

**METRIA****GLASS BODY pH ELECTRODE, SEMI MICRO APPLICATIONS**

Glass body electrode, specially designed for measuring pH in very small sample volumes or narrow vessels. Reference element Ag/AgCl, liquid refillable electrolyte (3M KCl/AgCl) and frit ceramic diaphragm. pH range 0 - 14, maximum service temperature 80°C. Stem dimensions: 90 x 4,5 mm. Available with two types of connections: BNC connector with fixed cable (length: 1 m) or S7 connector (delivery without connecting cable, to be ordered separately)

reference	conector	pcs/pack	price/pack kr
PHEL-GB3-001	1 m cable + BNC	1	1980

GLASS BODY pH ELECTRODE, FOR LIQUIDS

Glass body electrode, specially designed for measuring pH in liquids and deep flasks with narrow neck. Reference element Ag/AgCl, liquid refillable electrolyte (3M KCl/AgCl) and frit ceramic diaphragm. pH range 0 - 14, maximum service temperature 80°C. Lower shaft dimensions: 150 (\pm 2mm) x 6,2 mm (\pm 2mm). BNC connector with fixed cable (length: 1 m) or S7 connector (delivery without connecting cable, to be ordered separately)

METRIA

pH BUFFER CAPSULE

Twist the capsule, open and pour the granules in 100ml of DI (deionised) water, shake the solution so the granules dissolve and the solution is ready to use. Once made up the buffer should last approximately one week, before it's too weak to use. NIST certified. Tolerance margin of $\pm 0,02$ if used with deionised water. Tests show the same results even if the volume is not totally accurate, no need to measure with an exact volumetric flask and a pipette. If to use as a side information it can be used with distilled water and even tap water

METRIA**CONDUCTIVITY ELECTRODES**

Conductivity electrodes with temperature compensation to be used with COMT-M51-001 or COMT-M52-001.

Dimensions 120 x 12 mm, BNC connection with 1 m cable length.

K = 1: conductivity values (0 - 150 mS/cm), temperature range (0 - 100°C).

General purpose, plate material: platinum

K = 10: conductivity values (0 - 500 mS/cm), temperature range (0 - 100°C).

For high conductivity solutions, plate material: carbon

K = 0,1: conductivity values (0 - 500 µS/cm), temperature range (0 - 50°C).

For pure water, plate material: platinum

DIGITAL THERMO-HYGROMETER FOR REFRIGERATORS/FREEZERS, C602

Thermo-hygrometer with holder and magnet for an easy installation on the outside of refrigerators/freezers. Display that shows indoor and outdoor temperature and humidity. 1 m long sensor probe cable. Temperature unit °C/F. Indoor temperature range: -10 up to +50 °C (+14+122 °F), resolution 0.1 °C/F. Outdoor temperature range: -40 up to +70 °C (-40+158 °F), resolution 0.1 °C/F. Relative humidity measuring range: 20% to 95% with 1% resolution. User-definable alarm function of maximum and minimum temperatures. LED alarm indicator. Power supply: 1 battery LR44 1.5 V. Dimensions: 65 x 59 x 18 mm

PROFESSIONAL INFRARED LASER THERMOMETER, FOR BODY TEMPERATURE

Non-contact infrared thermometer, designed to measure body temperature by heat emitted from the forehead and for measuring temperature on objects. Body mode, surface mode and room mode. High temperature or fever alarm. Coloured display depending on obtained temperature value (green, orange or red). Storage of the last 32 readings. Auto power off. Large screen with backlight. Celsius or Fahrenheit degrees. Effective measurement distance: 3-5 cm. Range in human body: 32,0-43,0 °C. Accuracy (35,0-42,0 °C): ± 0,2 °C. Resolution: 0,1 °C. Measurement time

DATA LOGGER FOR TEMPERATURE MEASUREMENT

Temperature data logger that can store up to 48.000 readings. Temperature measuring range: -30 °C up to 70 °C, resolution 0,1 °C and accuracy ±0,5 °C. LED display and alarm, minimum, maximum and mark function. EN 12830. Integrated USB that can download data to PC and generates PDF/Excel reports automatically containing summary, graphs and detailed data. Completely programmable: 6 languages, sampling interval, start delay, alarm delay, unit, alarm range, alarm type, password and user name. IP65 (88161) and IP67 (88160). 88161 allows the connection of an external temperature probe (not included). Power supply: 2 x 3,0 V CR2032 (included). 9 month battery life time. Warranty 1 year

QUEVENNE MILK HYDROMETER

Compared to conventional hydrometers, it offers a more accurate option as it has a scale suitable for the range of milk. The instrument has the thermometer scale placed at the top, making reading easier despite the opacity of the milk. For opaque liquids like milk, the reading is taken above the meniscus. Calibrated at 20°C. Units: °C and g/ml. Length: 250 mm. This instrument is not delivered with calibration certificate

"SPECTROPHOTOMETER, VISIBLE, V-10 PLUS"

For education, general use and routine analysis. Components that guarantee an excellent performance. Wavelength lecture directly on the screen. Auto zero and blank. Measurement of absorbance, transmittance and concentration. Quantitative: standard curve and coefficient methods. Pre-aligned lamp design, which ensures an easy exchange by the user. Includes software to extend the applications to the curve and standard kinetics. LCD screen (128 x 64 pixels). Sheath. Trackable Standard DAkkS Certificate. Wavelength range: 325 - 1000 nm. Bandwidth: 4 nm. Optical system: single beam. Grid: 1200 lines/mm. Wavelength accuracy: ± 2 nm. Repeatability: ± 1 nm. Resolution: 0,5 nm. Photometric mode: %T, Abs, Conc and Factor. Detector: silicon photodiode. Standard cell holder for 4 square 10 mm cells (4 optical glass cells included). Light source: tungsten. Lamp lifespan: 2000 hours approx. USB port (for PC remote control) and parallel port (for direct printing). Optional: professional software for data exportation to spreadsheet, color intensity analysis and tonality according to specific methods for OIV-MA-AS2-07B wines (SPTR-A01-001). Weight: 8 kg. Dimensions (mm): 440 x 360 x 180. 85-265 V / 50-60 Hz. Warranty 2 years. Delivery time 3 weeks

**METRIA**

Measures CO₂ (0 - 9999 ppm) and temperature (-10 + 60 °C). CO₂ precision: ± 30 ppm ± 5% of measurement (0 - 5000 ppm) and ± 10% of the measurement for the other range. Temperature precision: ± 0,6 °C. Ideal for indoor air quality measurement (IAQ). Uses NDIR technology (non dispersive infrared detector) to ensure long-term reliability and stability. Acoustic alarms, maximum, minimum, average and hold functions. 4 AA batteries (included). Includes hard carry case. Warranty 2 years

reference	description	pcs/pack	price/pack kr
IAQM-P01-001	Portable air quality meter, 77532	1	4656

**METRIA****AIR QUALITY METER, WALLMOUNT, 7722**

Measures CO₂ (0 - 9999 ppm), temperature (-10 + 60 °C) and humidity (0,1 - 99,9% RH). CO₂ precision: ± 50 ppm ± 5% of measurement (0 - 2000 ppm) and ± 10% of the measurement for the other range. Temperature precision: ± 0,6 °C. Humidity precision: ± 3% RH. Ideal for indoor air quality measurement (IAQ). Uses NDIR technology (non dispersive infrared detector) to ensure long-term reliability and stability. Acoustic alarms, maximum, minimum and average functions. Universal adapter for charging. Warranty 2 years

"LABORATORY TABLE, C SHAPE"

Worktop made with high resistance compact phenolic resin Fundermax Resistance², soft grey, 20 mm thick. Ideal for all types of laboratories and indispensable in physical-chemical laboratories. Tube metal frame made of cold rolled steel 60 x 30 mm, with an antirust epoxy resin protection layer. With a maximum load capacity of 300 kg/linear meter. Four adjustable support points to level the table. Delivered assembled. Warranty 5 years. Delivery time 4 weeks

Our laboratory tables are made of Max Resistance², a patented material according to EN-438-4.

Great robustness, it is not affected by solvents, most of acids, nor the most aggressive chemicals, exceeding the SEFA3 standards.

The absence of pores and micropores makes this surface easy to disinfect and does not favor the growth of bacteria (as effective as stainless steel or tiles), making it ideal for laboratories in the medical, biochemical, food and pharmaceutical fields.

Abrasion resistance is 3 times higher than melamine or EBC (450 U) has a 25% higher scratch resistance (Grade: 3-4, 4-6 N) and 8 mm impact resistance.

Withstands high temperatures up to 180 ° and sudden thermal variations tested under EN 438-2 standard.

MAX RESISTANCE² STRUCTURE

CRYOGENIC GLOVES

Used to handle items stored under liquid nitrogen or other very cold temperatures (from -120 °C up to -190 °C). Designed in order to leave plenty of space to the fingers. Water-resistant. Up to mid-arm, 37 cm long. According to EN 511 and EN 388 standards

reference	type	pair of gloves	price/pack kr
GLOF-S37-001	small size	1	2716
GLOF-M37-001	medium size	1	2716
GLOF-L37-001	large size	1	2716

THERMAL PROTECTIVE GLOVES

Waterproof gloves for protection against liquid nitrogen (and other cryogenic gases) and heat (-200°C to 250°C). Antistatic and made of waterproof treated leather. An inner membrane allows perspiration but does not allow liquids to penetrate. Soft inner lining in multilayer fabric for thermal protection and comfort. 38 cm long. Conforms to EN 388, EN 511 and EN 407

reference	type	pair of gloves	price/pack kr
GLOD-S38-001	small size	1	2525
GLOD-M38-001	medium size	1	2525
GLOD-L38-001	large size	1	2525

AUTOCLAVE GLOVES

Made of Nomex III fibers (mixture of thermo-resistant and infusible aromatic polyamides) and with no asbestos fibers. Under normal service conditions, physical properties stay unchanged for several hours at 260 °C, withstanding as well 370 °C when its degradation starts. When approached to flame, they do not melt, but instead they get scorched making a crust allowing protection. Can also be used sporadically to handle items stored under nitrogen vapour phase (-180 °C). Resistant to bases, acids and organic products but not to large exposures to some concentrated inorganic acids. Available in 30 cm long or 52 cm long.

According to EN 407, EN 388 and EN 21420:2020 standards

labkem | RINSING AGENT, FOR AUTOMATIC WASHING MACHINE

Acidic neutralizing agent - surfactant free. For use in laboratory glassware washers. LABKEM RINSE AGENT A103 is biodegradable and is used in the neutralizing cycle after the main alkaline washing cycle with LABKEM CLEANER A102. Neutralizes and removes residual alkaline and mineral traces which may cause white stains on glassware. LABKEM RINSE AGENT A103 can also be used in the prewash cycle. Complete rinse without residues. See Specification Sheet to consult the composition and other relevant information available on the website

reference	description	package	price/pack kr
SOAP-103-5K0	labkem rinse agent A103	5 L	783

DETERGENTS FOR LABORATORY USE, FOR MANUAL CLEANING

Recommended for manual use, soaking and ultrasonic cleaning of glassware and laboratory equipment made of stainless steel, porcelain, ceramic and plastic. LABKEM CLEANER is biodegradable and ensures complete removal: grease, oils, blood, cell tissue, chemicals and biological residues, etc.

Complete rinse without residues. See Specification Sheet to consult the composition and other information (to be downloaded from our website)

CHEMICALS

LABORATORY CHEMICALS AND REAGENTS **labkem**

PRODUCT DISTRIBUTION

BASICKEM CHEMICALS FOR USE IN LABORATORIES. INCLUDES THE FOLLOWING GRADES:

- AGR** – **ANALYTICAL GRADE**: FOR ANALYTICAL APPLICATIONS WITH LOW IMPURITY LEVEL (ON THE ORDER OF PPM), ACCORDING ACS OR ISO STANDARDS
- EPR** – **EXTRA PURE**: FOR ORGANIC SYNTHESIS, CHEMICAL PREPARATIVE OR ROUTINE ANALYSIS APPLICATIONS
- GLR** – **GENERAL LABORATORY REAGENT**: FOR GENERAL USE.
- VSA** – **VOLUMETRIC SOLUTION FOR ANALYSIS**: USED IN VOLUMETRIC ANALYSIS, MOSTLY ACID-BASE
- IND** – **INDICATOR**: INDICATORS FOR VOLUMETRIC TITRATIONS
- AUX** – **AUXILIARY GRADE**: AUXILIARY PRODUCTS FOR LABORATORY USES

LIFEKEM PRODUCTS FOR BIOLOGICAL AND MICROBIOLOGICAL APPLICATIONS. INCLUDES THE FOLLOWING GRADES:

- MIC** – **MICROSCOPY GRADE**: DYES AND STAINS IN POWDER OR READY TO USE IN MICROSCOPY AND HISTOLOGY APPLICATIONS
- HIS** – **HISTOLOGY GRADE**: TO USE IN THE FIELD OF PATHOLOGY
- BAC** – **BACTERIOLOGY GRADE**: CULTURE MEDIA, BASES, BROTHS AND INGREDIENTS FOR BACTERIOLOGICAL APPLICATIONS
- GEN** – **MOLECULAR GENETIC GRADE**: CULTURE MEDIA, BASES AND AGAROSSES FOR MOLECULAR BIOLOGY APPLICATIONS

INSTRUKEM HIGH PERFORMANCE PRODUCTS FOR GC, HPLC, LC-MS AND ICP AND OTHER INSTRUMENTAL ANALYTICAL TECHNIQUES. INCLUDES THE FOLLOWING GRADES:

- GGR** – **GRADIENT GRADE**: HIGH PERFORMANCE SOLVENTS FOR HPLC (HIGH PRESSURE LIQUID CHROMATOGRAPHY)
- PGR** – **PESTICIDE GRADE**: SOLVENTS FOR PESTICIDE ANALYSIS
- LGR** – **LC/MS GRADE**: ULTRA-HIGH PERFORMANCE SOLVENTS FOR LC-MS (LIQUID CHROMATOGRAPHY – MASS SPECTROMETRY)
- TGR** – **TRACE GRADE**: VERY HIGH PURITY ACIDS, WITH AN IMPURITY LEVEL ON THE ORDER OF 0,1-1 PPB, FOR SAMPLE PREPARATION FOR TRACE ANALYSIS BY ICP-MS/OES (INDUCTIVELY COUPLED PLASMA – MASS SPECTROMETRY / OPTICAL EMISSION SPECTROMETRY)
- KFR** – **KARL-FISCHER GRADE**: REAGENTS FOR DETERMINATION OF HUMITY BY KARL-FISCHER METHOD

Labels according to CLP

From December 1, 2010 all manufacturers and importers of chemicals in the EU are obliged to label them according to the criteria of the 1272/2008 Directive, known as CLP. The CLP Directive (Classification, Labelling and packaging of Substances and Mixtures) replaces the previously existing labelling systems and implements in Europe the bigger project called GHS (Global Harmonised System of Classification and Labelling of Chemicals), sponsored by the UN in order to unify the various regulations existing worldwide regarding labelling of chemicals.

All Labkem products are labelled according to CLP and include the pictograms and the new hazard (H) and caution (P) phrases defined by this directive.

Material Safety Data Sheets (MSDS)

MSDS are intended to give all available information enabling the safe management of chemicals and eliminating or minimizing adverse effects to humans and the environment. In the European Union (EU), MSDS are governed by the 1907/2006 REACH Directive and should also incorporate the new classification criteria introduced by CLP Directive.

On our Website www.labbox.eu you can download all Labkem product MSDS in 6 languages: English, Spanish, French, Portuguese, Dutch and Italian.

**Certificate of Analysis**

For each Labkem product you can download free of charge a certificate of analysis for any batch on our website www.labbox.eu. To do this, you need to enter the product reference and the batch number printed on the label. The certificate mentions the product name, quality, dates of manufacture and expiry, and Labkem specifications with the allowed impurities and test results for each batch.

MAY REQUIRE A DECLARATION OF USE DEPENDING ON DESTINATION COUNTRY

Premium Line PORCELAIN, TECHNICAL SPECIFICATIONS**Thermal Shock Resistance:**

Average coefficient of expansion from 20 °C to 200 °C is $3,56 \times 10^{-5}$, gradually increasing to $4,69 \times 10^{-5}$ at 1000 °C.

Experience has indicated suitability of particular shapes for specific uses. It remains the responsibility of the user to determine the suitability for his use. To prevent thermal stress cracks on porcelain ware, Labbox strongly recommends a heating/cooling rate not to exceed 200 °C/hour. The thermal shock resistance of laboratory porcelain depends on various factors such as the correct correlation of the coefficient of expansion of porcelain body and glaze, the elasticity of glaze, etc.

Resistance to Chemical Action:

The resistance to acids and alkalies is excellent, except for hydrofluoric acid.

Prolonging labware life:

Follow gradual heating and cooling rates. Use an oven or hot plate as an intermediate step when quicker heating/cooling rates are required. Gradually increase flame intensity when using a gas burner. Avoid contact of heated ware with a cold surface. Carefully inspect your labware prior to each use and do not use any product that appears defective.

PHYSICAL PROPERTIES OF METALWARE

Material	Melting point	Density
Stainless steel 18/8	1398 °C	7,93 g/cm ³
Stainless steel 316	1398 °C	8,0 g/cm ³

Natural rubber	-30 °C to +110 °C	no	45	700 %
Latex	-40 °C to +68 °C	no	40	650 %

LABBOX GLASSWARE, TECHNICAL SPECIFICATIONS

LBG 3.3 is a borosilicate glass with a minimum content in silica of 80 % and a low expansion coefficient ($3,3 \cdot 10^{-6} \text{ K}^{-1}$) included in the 3.3 borosilicate group, as defined in ISO 3585 standard.

It is used in products where chemical and mechanical resistance is to be combined with resistance to sudden temperature changes. This particular combination of properties makes this type of glass the most used in labware.

Physical and chemical properties

Linear expansion coefficient (@ 20/300 °C)	$3,3 \cdot 10^{-6} \text{ K}^{-1}$
Strain point	520 °C
Annealing point	$560 \pm 10 \text{ }^{\circ}\text{C}$
Softening point	$820 \pm 10 \text{ }^{\circ}\text{C}$
Density	$2,23 \pm 0,02 \text{ g/cm}^3$
Hydrolytic resistance (acc. to ISO 719, water at 98 °C)	Class 1
Hydrolytic resistance (acc. to ISO 720, water at 121 °C)	Class 1
Resistance to acids (acc. to ISO 1776, DIN 12116)	Class 1
Resistance to alkalis (acc. to ISO 695)	Class 2

Typical composition

80,4 %	in weight SiO_2
13,0 %	in weight B_2O_3
4,2 %	in weight Na_2O
2,4 %	in weight Al_2O_3

LBG N is a neutral borosilicate glass with a high chemical resistance. Its average linear dilation coefficient is $8,0 \cdot 10^{-6} \text{ K}^{-1}$. It is used in products not intended to be directly heated, but instead should have a higher mechanical resistance (such as mortars, desiccators, filtering flasks ...) or in some volumetric glassware (such as pipettes, burettes ...).

GENERAL MAINTENANCE RECOMMENDATIONS AND CLEANING OF GLASSWARE

First of all, check before each use and washing that the glass material does not show any damage (if you find that it is damaged, do not use it). It is recommended to always wash this type of material before the first use, as well as immediately after each use. If you suspect that the material may have come into contact with contaminated products, wash and sterilize it.

Cleaning recommendations to protect the printing on the glass:

Never clean with abrasive products directly as they can damage the surface. Use a sponge or cloth impregnated with the cleaning solution. The glass material can be immersed in a bath at room temperature with the cleaning solution, rinsed with hot water and finally with distilled water. Avoid temperatures above 70 °C, excessively long actuation times and strongly alkaline media (as this would affect screen printing and could lead to corrosion of the glass).

Avoid mechanical aggressions during cleaning.

If a manual cleaning is performed:

- 1- Use a soft cloth or a non-scratching sponge with water and a mild cleanser. In general, do not use anything that can scratch the glass (spatula, etc.).
- 2- Do not use abrasive detergents that could damage the surface of the glass or erase the inscriptions.
- 3- Never allow the glass material to be soaked with strongly alkaline products.
- 4- Wash at room temperature and in case of immersion, do not soak the glass material for more than 30 minutes.
Maximum water temperature: 70 °C.
- 5- Rinse with running water and then with distilled water.

If stem washing is performed:

Stem washing is less aggressive to glass than manual washing because the material is not in prolonged contact with the detergent.

- 1- Use a suitable detergent with the dishwasher and a mild detergent with the glass.
- 2- Place the material in the dishwasher in such a way as to avoid friction or breakage.

UNDERSTANDING LABBOX LABELS AND REFERENCES

The nomenclature of a Labbox reference consists of the following elements:

Differences within the same product family
(volume, size, diameter, ...)

Beaker, low form, 150 ml, LBG 3.3, 12 pcs.

First, the first 4 digits indicates the family to which the product belongs. In this case, BKL3 corresponds to low form beaker.

The next part of three digits describes differences within the same product, whether it is volume, size, diameter, color ... In the example given, 150 states the volume which is 150 ml.

Finally, the last three digits refer to the packaging, that is, the pieces per box of the product. In this specific example the number '012' indicates that each box contains 12 glasses.

Label overview:

November 14 - Hamburg, Germany

SHIPPING TERMS

All prices are stated Ex Works Ski (NO) or Kungsbacka (SE), so freight charges, depending on weight and volume, will be added.

Please notice that shipping cost of hazardous chemicals is not subject to the same regulations, because of the additional import taxes and transport. Contact our customer service for more information.

REMARKS REGARDING PRICING

Prices mentioned in this catalogue are VAT excluded and valid until the 31st of January 2025.

We are doing our best to keep these prices valid during all 2024; nevertheless, we reserve the right to change any price without notice in case of significant variations in costs or any mistake found in the catalogue.

All our products are sold by packs of one or several pieces.

WARRANTY AND TECHNICAL SERVICE

The warranty period is mentioned for each product in this catalogue. This period is of minimum 1 year and for some items up to 5 years.

Our Technical Service is available at any moment to solve any problem related to our equipment.
