NMR-Solvents, Deuterium Labeled Compounds & NMR-Tubes*

ZEOCHEM®

A Company of CPH Chemie & Papier Holding AG

ZEOTOPE®

We are pleased to introduce new products to complement the range of deuterated solvents offered in the ZEOTOPE portfolio. Expanding our product offerings to include accessories needed daily in the NMR laboratory, we are proud to continue serving as a single-sourcing partner for NMR users. All NPI enhancements are continuously updated on our website at www.ZEOTOPE.com. We would be happy to meet the needs and requirements of your next project.

Try the ZEOTOPE® Ampoule Opener!

This tool aids in handling ampoules and protects the user from potential safety injuries when opening. Made of high-quality aluminum, the ampoule opener is also easy to use and is made for durability.

ZEOTUBE, "The Reference" regarding NMR-Tubes!

The NMR-Tubes are a great addition to our variety of products. The tubes are manufactured in accordance with the highest quality standards, granting full transparency through batch allocation. ZEOTubes are available in three of the most commonly used tube types - Throw Away (TA), High Precision - 400 MHz (HP), and Ultra Precision - 600 MHz (UP), each with a 5mm diameter and a length of 178mm.

Bulk Quantities

Looking for specific package requirements? All products are available in bulk and available in various packaging units ranging from glass bottles to 200-liter drums.
